

Hot Off The Press

As a result of the decision to centralize many purchasing, vouchering and bookkeeping functions of the System Office departments, Pamela Blackwell will be moving from the B/P/P Operations Center to join the staff of the System Office Budgets and Accounting department. She will be deeply involved in the implementation of this new process.

For the time being, Pamela will continue to be located in her current office, but it is anticipated that this will change at some point in the future. Pamela has already started supporting her new job functions. We will miss her and wish her well in her new responsibilities and ventures.

The exact nature of the final disposition of all the job functions Pamela performed has not been determined at this time. Many of the general administrative and office functions will be assumed by Sherri Lander, who holds a similar position in FAMIS Services. Other functions, such as security change requests, BPP System access problems and the establishment of new IDs, will be performed by members of the BPP Operations Center production control staff. Other functions remain unassigned at this time.

We will keep you informed of changes to internal BPP Operations Center procedures and processes that impact our operations as time progresses. Thank you in advance for your consideration as we move through this period of transition.

Just a quick note - I just wanted to say thanks to everyone. I have learned so much from each of you. I want everyone to know how much I appreciate them not only as dedicated hard workers but also as warm, caring people. Each of you have touched my heart and I will miss you. I'm just moving over to SOBA, so I'm not going too far. Take care of each other and if you find yourself down my way, please drop by to say hello.
