Report for Week Ending February 20, 2022

Latest Updates: Afghanistan, Burkina Faso, Burma (Myanmar), Cameroon, Central African Republic, Colombia, Democratic Republic of Congo, Honduras, India, Iraq, Israel, Kenya, Mali, Mexico, Niger, Nigeria, Pakistan, Philippines, Russia, Somalia, South Sudan, Sudan, Syria, Ukraine.

- **Afghanistan**: On February 16, at least two people were injured and several families were displaced from their homes along the Durand Line border with Pakistan in Sirkanay and Marwara districts in Kunar province, due to heavy rocket firing by Pakistani forces since afternoon hours local time. Taliban forces also returned fire.

- **Afghanistan**: On February 16, at least five people were injured in an explosion in the Kote Sangi area of Kabul's Police District 5 (PD5) during evening hours local time.

- **Burkina Faso**: On February 17, at least five people were killed and six others injured when a group of unidentified gunmen, suspected to be militants, attacked the villages of Korizéna and Dambam in Oudalan province, Sahel region, during evening hours local time.

- **Burma (Myanmar)**: On February 18, groups of protesters rallied in several areas, including in Myaing township, Magway region, as well as Hpakant township in Kachin state and Sagaing region’s Salingyi, Yinmarbin, Kale, and Tabayin townships, as of morning hours local time, against military rule. No clashes were immediately reported. Protests have been ongoing since February 13th.

- **Cameroon**: On February 15, at least two civilians were killed during an attack by Boko Haram militants in Gaboua, Koza, Fart North region, near the border with Nigeria, during evening hours local time.

- **Central African Republic**: On February 17, at least 21 ethnic militants of the RPRC, including one of their leaders, were killed in an attack by mercenaries from the Russian Wagner Group in Ouadda, Haute Kotto prefecture, at around 16:00 local time (15:00 GMT).

- **Colombia**: On February 13, at least one soldier was killed and three others were injured by a suspected ex-Revolutionary Armed Forces of Colombia (FARC) dissidents' landmine while on patrol in Socuavo village located in Tibú municipality, Norte de Santander department, during morning hours local time.

- **Colombia**: On February 14, at least three people were injured after a vehicle-borne improvised explosive device (VBIED) detonated at a police station in the Guasimo area of Caloto, Cauca department, at around 13:50 local time (18:50 GMT). No group immediately claimed responsibility for the blast.
- **Colombia**: On February 15, The United States (US) Embassy in Bogota issued a warning that said there was an ongoing uptick in attacks targeting security forces across the country. Travellers, as a result, are advised to avoid concentrations of security forces.

- **Colombia**: On February 18, at least three soldiers were wounded after a patrol was ambushed by suspected National Liberation Army (ELN) rebels in San Francisco, Teorama municipality, Norte de Santander department, during early morning hours local time. Security was heightened in the area.

- **Democratic Republic of Congo**: On February 15, at least 10 people were killed when Allied Democratic Forces (ADF) rebels attacked the villages of Muholya, Vuthinangalo, and Vunanga, Watalinga district, Beni territory, North Kivu.

- **Democratic Republic of Congo**: On February 15, at least 16 people were killed when Cooperative for the Development of the Congo (CODECO) militants raided the village of Scierie Landa in Djugu territory of Ituri province, during early morning hours local time.

- **Democratic Republic of Congo**: On February 15, at least 20 people, including three civilians, were killed during clashes between Cooperative for the Development of the Congo (CODECO) militants and Forces of the Democratic Republic of the Congo (FARDC) troops in the village of Abombi near Bunia in Djugu territory of Ituri province during evening hours local time.

- **Democratic Republic of Congo**: On February 16, at least 16 people, including 12 Mai-Mai militants, were killed and four soldiers wounded after the militants raided Bibogobogo, Fizi territory, South Kivu province, during early morning hours local time.

- **Democratic Republic of Congo**: On February 17, at least two people were killed and seven houses set ablaze when Allied Democratic Forces (ADF) rebels attacked the village of Makeke near Mangina in Beni territory, North Kivu.

- **Honduras**: On February 16, at least four people were tortured and killed in La Brea sector of Trujillo municipality, Colón department, since 13 February, amid land disputes involving suspected gang members.

- **India**: On February 16, a 32-year-old man who was suspected of being a police informant, was killed by Maoist rebels in Kandhamal district, Odisha state, the rebels abducted him two days prior from Kandhamal’s Bhandragani area.

- **Iraq**: On February 13, police clashed with demonstrators near the gates of the Green Zone in Baghdad, during afternoon hours local time, in a university graduates’ protest to denounce the lack of work opportunities. The gates of the Green Zone were closed near the 14th of July Bridge. There were no immediate reports of injuries or arrests.

- **Iraq**: On February 13, an improvised explosive device (IED) blast struck a logistics convoy supporting United States (US)-led coalition forces in Samarra, Saladin governorate, during afternoon hours local time. There were no immediate reports of casualties.
Iraq: On February 14, police fired live bullets at demonstrators near Al-Nasr Bridge in Nasiriyah, Dhi Qar governorate, during afternoon hours local time, in a protest to demand better healthcare services. The bridge was blocked in the direction of Al-Shamiya with burning tires and at least 17 people were arrested following the burning of an army vehicle.

Iraq: On February 15, at least four soldiers were injured after the vehicle they were travelling in hit an improvised explosive device (IED) planted by Islamic State (IS) militants west of Qarah Tapah, Diyala governorate, during morning hours local time.

Israel: On February 14, at least 31 people were injured in clashes amongst Israeli and Palestinian community members, and security forces in the Sheikh Jarrah neighbourhood of East Jerusalem on 12-13 February, following an announcement by a far-right lawmaker that he will reopen an office in the area.

Israel: On February 14, Israel Defence Forces (IDF) soldiers clashed with Palestinians at the Qalandia checkpoint in Jerusalem, during afternoon hours local time. There were no immediate reports of casualties or arrests.

Israel: On February 14, Israel Defence Forces (IDF) soldiers clashed with and fired stun grenades to disperse Palestinians gathered in Sheikh Jarrah, Jerusalem, during evening hours local time, following a recent announcement by a far-right lawmaker that he will reopen an office in the area. A group of Israeli right-wing members gathered on Road 1 near the Mea She'arim-Sheikh Jarrah junction.

Israel: On February 15, Israel Defence Forces (IDF) soldiers closed the entrance to and maintained strong presence in Sheikh Jarrah, Jerusalem, during evening hours local time, to prevent demonstrators from gathering in the area in solidarity with Palestinians. There were reports of scuffles but no injuries or arrests or immediately known.

Kenya: On February 13, at least 15 members of security forces were killed when their vehicles triggered an improvised explosive device (IED) en route to Mangay in Lamu County, as of morning hours local time. Al-Shabaab militants have claimed responsibility for the incident.

Kenya: On February 16, a military vehicle triggered an improvised explosive device (IED) en route to Hulugho, Garissa County, during morning hours local time. Casualties were reported however further details were not immediately available.

Mali: On February 17, French President Emmanuel Macron announced that French troops involved in the counter-terrorism Operation Barkhane will be withdrawn from Mali over the next 4-6 months following a breakdown in relations with Mali’s military-led government. Troops from the European-led Takuba task force will also be withdrawn from the country.

Mali: On February 17, at least 40 civilians were killed and hundreds more displaced in Tadjalalt, Ansongo cercle, Gao region, due to ongoing clashes between al-Qaeda-linked Jama'a Nusrat ul-Islam wa al-Muslimin' (JNIM) and rival Islamic State (IS) militants over the past week.
Mexico: On February 14, at least one person was killed and one other injured when a land mine detonated in rural Aguililla, Michoacán. Authorities tightened security in the municipality and blamed drug cartels for planting the mine. At least six soldiers were earlier injured in a land mine explosion between Apatzingán and Tepalcatepec on 7 February.

Niger: On February 17, at least one Nigerian soldier was killed and another injured in clashes with suspected militants in Sanam, located near the border with Mali in Tillaberi region, at around 17:30 local time (16:30 GMT).

Niger: On February 17, at least five soldiers were killed when their vehicle struck an improvised explosive device (IED) while traveling through Tiawa in Tillaberi region, near the border with Burkina Faso.

Nigeria: On February 15, at least 10 people were kidnapped following an attack by unknown gunmen on Ajaokuta rail station in Kogi State.

Nigeria: On February 15, suspected Fulani fighters burned down all the homes in Apiababum, Atyap, Zangon Kataf local government area (LGA), Kaduna state. They also killed three people in a similar attack on the area on 13 February.

Nigeria: On February 15, at least seven people were killed or injured when Islamic State-West Africa Province (ISWAP) militants fired several mortar shells at Wulgo, Ngala local government area (LGA) in Borno state, targeting a military camp. At least three soldiers were also killed in an ambush by the militants near Wulgo.

Nigeria: On February 16, at least several people were killed in an attack by unknown gunmen on Abia cattle market in Omumauzor in Ukwa West local government area (LGA) of Abia State. Initial reports indicate that dozens are feared dead. The motive behind the attack remains unknown.

Nigeria: On February 16, supporters of sun All Progressives Congress stormed the Osun State Police Command in Osogbo, Osun state, during afternoon hours local time to protest against the policies of the local police commander. No further details were immediately available.

Nigeria: On February 16, at least eight people were killed when armed bandits raided a cattle market in Omumauzor, Ukwa West local government area (LGA), Abia state.

Nigeria: On February 16, at least 22 people were abducted and four others wounded after armed bandits raided Idon in Kajuru local government area (LGA), Kaduna state, during early morning hours local time.

Nigeria: On February 17, bandits attacked Idon town in Kajuru Local Government Area (LGA) of Kaduna state during early morning hours. At least four people were injured and a further 22 people were kidnapped.

Nigeria: On February 17, at least 41 militants were killed, including a key militant leader, in Nigerian Air Force (NAF) airstrikes near Tsamben Babare in Katsina.
- **Pakistan:** On February 16, at least six militants were killed in clashes with security forces during a raid near Buleda, Kech district, Balochistan province, there were no reports of casualties among government forces.

- **Philippines:** On February 13, at least nine people were killed and three others were injured in a gunfight between two groups of the Bangsamoro Islamic Armed Forces-Moro Islamic Liberation Front (BIAF-MILF) militants in barangay Kalumamis, Guindulungan, Maguindanao province, during morning hours local time, due to an internal feud.

- **Philippines:** On February 14, at least three people, including two policemen were injured, when a roadside improvised explosive device (IED) detonated in barangay Bi-ao, Binalbagan, Negros Occidental province. Authorities suspected that New People's Army (NPA) rebels were responsible for the attack.

- **Russia:** On February 14, the governments of Russia and Ukraine separately issued notices to airmen (NOTAM) advising that all commercial flights avoid flying over the Black Sea on 14-19 February, due to planned Russian military exercises south and west of Crimea.

- **Somalia:** On February 16, at least four civilians were killed when their vehicle triggered the blast of an improvised explosive device (IED) near Hansholey village in Jowhar district, Middle Shabelle region, during morning hours local time. Further Information was not immediately available.

- **Somalia:** On February 16, an explosion and gunfire took place in Kahda district of Mogadishu at around 01:00 local time (22:00 GMT, 15 February). Security forces reportedly repelled an attack by Al-Shabaab militants on Kahda police station and Darasalam neighborhood, while Dayniile and Heliwaa districts and Elasha in and around the capital were also under attack. Electricity was reportedly also cut in Jamhuuriya neighborhood in Kaaran district.

- **Somalia:** On February 16, at least two people were killed and a further 16 injured in multiple attacks carried out by Al-Shabaab, which took place in the Darusalam neighbourhood and police station in the Kahda district of Mogadishu, at approximately 01:00 local time (22:00 GMT, 15 February).

- **South Sudan:** On February 16, at least 25 people were killed and dozens others were injured when an armed group of youths from Ruweng, Pariang county attacked a village in Unity state’s Guit county during the early morning hours, killing two people which triggered a counter-attack, leaving 23 of the Ruweng youths dead.

- **Sudan:** On February 14, security forces fired tear gas to disperse anti-government demonstrators moving towards the Presidential Palace in Khartoum during afternoon hours local time. There were no immediate reports of casualties or arrests.

- **Sudan:** On February 17, protest action was likely in Khartoum on 17 February. No further information was immediately available.

- **Syria:** On February 15, at least one soldier was killed and a further eleven were wounded when an explosion hit a military bus in Damascus during early morning hours local time.
▪ **Syria**: On February 16, at least three people were killed and seven others wounded when suspected SDF militants shelled Azaz, Aleppo governorate. At least seven people were injured in separate attacks by suspected FSA militants in Tell Rifaat.

▪ **Syria**: On February 16, an explosive device planted in a car detonated in the Wadi al-Naseem area of Idlib, Idlib governorate, at around morning hours local time. No injuries were reported. No further details were immediately available.

▪ **Syria**: On February 17, suspected Israeli missile strikes were reported in and around Zakiya in Rif Dimashq governorate and Damascus. Further information on possible casualties was not available.

▪ **Syria**: On February 17, one person was killed when an improvised explosive device (IED) planted in a vehicle exploded outside the Fatima al-Zahra mosque in Al-Bab city, Aleppo governorate, during morning hours local time.

▪ **Ukraine**: On February 16, Indian foreign ministry officials urged all Indian nationals, particularly students, to consider leaving the country immediately while others were advised to avoid non-essential travel within and to Ukraine, due to the risk of Russian military action. The Indian embassy in Kyiv remained operational.

▪ **Ukraine**: On February 16, Russian sources reported that Ukrainian security forces allegedly fired mortar shells and grenades at four localities of Luhansk People's Republic, Luhansk oblast, Donbas region, at around 02:30 local time (23:30 GMT).

▪ **Ukraine**: On February 17, Russian sources indicated that separate explosions caused by mortar shells and grenades launched by suspected Ukrainian forces were reported in parts of Donetsk oblast, including Kominternovo, Novolaspa and Petrovskoe, as well as Luhansk oblast, including in Veselenkoe, Donetsk, Nizhnee Lozovoe and Sokolniki, at around morning hours local time.

▪ **Ukraine**: On February 17, artillery shelling was heard near the Donetsk Sergei Prokofiev International Airport (DOK/UKCC) and Elenovka village in Donetsk oblast as of morning hours local time. No further information was immediately available. Earlier, Russian local sources blamed Ukrainian security forces for launching mortar shells and grenades in several areas of Luhansk and Donetsk oblasts.

▪ **Ukraine**: On February 17, artillery shelling was heard near Maryinka in Donetsk oblast as of morning hours local time. No further information was immediately available. Shelling was reported near the Donetsk Sergei Prokofiev International Airport (DOK/UKCC) and Elenovka village in Donetsk oblast several hours previously.

▪ **Ukraine**: On February 17, seven people were injured following artillery shelling across multiple locations, including in Stanytsya and Vrubivka, Luhansk Oblast, and in Maryinka, Donetsk oblast, as of morning hours local time.

▪ **Ukraine**: On February 17, artillery shelling continued across multiple locations, including in Stanytsya, Vrubivka, Stakhanov and Lysychansk, Luhansk oblast, and in Maryinka,
Shyrokyne, Sakhanka and Mariupol, Donetsk oblast, during evening hours local time. At least seven people were earlier injured following shelling.

- **Ukraine**: On February 18, Russian sources indicated that the highway between Donetsk and Horlivka (Gorlovka) in Donetsk oblast was closed to all traffic as of morning hours local time, following artillery shelling in Panteleymonovka and Red Partizan areas. Officials of Donetsk People's Republic advised residents of affected areas to charge phones, stay away from windows and ensure a supply of bottled water.

Please be aware System Risk Management has asked all members to prohibit travel to extreme risk countries and regions. Please reference memorandum from the Chancellor regarding procedures relating to international travel to be followed by all System members found at this link: [http://www.tamus.edu/assets/files/safety/pdf/InternationalTraveltoHighRiskCountries.pdf](http://www.tamus.edu/assets/files/safety/pdf/InternationalTraveltoHighRiskCountries.pdf)

Should you have any questions, please contact me directly. Thank you.

COUNTRY TRAVEL ADVISORY LIST

Any travel to the below listed Extreme Risk countries or countries with an Extreme Risk region requires an International Travel Questionnaire submission to System Risk Management for review.

EXTREME RISK COUNTRIES

1) Afghanistan  7) North Korea
2) Central African Republic (CAR)  8) Somalia
3) Iran  9) South Sudan
4) Iraq  10) Sudan
5) Libya  11) Syria
6) Mali  12) Venezuela
  13) Yemen

HIGH RISK COUNTRIES

1) Algeria  19) India
2) Azerbaijan  20) Israel
3) Burkina Faso  21) Kenya
4) Burma (Myanmar)  22) Lebanon
5) Burundi  23) Mauritania
6) Cameroon  24) Mexico
7) Chad  25) Niger
8) Colombia  26) Nigeria
9) Congo (Republic of)  27) Pakistan
10) Cuba  28) Panama
11) Democratic Republic of the Congo (DRC)  29) Philippines
12) Ecuador  30) Russia
13) Egypt  31) Saudi Arabia
14) Eritrea  32) Tunisia
15) Ethiopia  33) Turkey
16) Georgia  34) Ukraine
17) Haiti
18) Honduras
COUNTRY TRAVEL ADVISORY DETAILS BY RISK LEVEL

EXTREME RISK COUNTRIES

Afghanistan
Risk Level: Extreme

Country Overview:

It is advised to avoid travel to Afghanistan. Travel is unsafe due to the unstable security situation involving armed conflict, terrorism, crime, and civil unrest. There is an extreme risk to personal safety and security because of widespread military operations, terrorism and insurgent attacks, and high levels of kidnappings, hostage-taking, suicide bombings, landmines, and vehicle-borne or other improvised explosive devices. Due to extensive warlordism and lawlessness, Afghanistan has long been beset by weak governance in many regions.

The Taliban launched a sweeping offensive against government forces resulting in the complete collapse of the Afghan Government. On August 15, 2021, the Taliban seized Kabul, marking complete control of all major cities in Afghanistan. The Taliban have solidified control of the country and have installed a Taliban government. The initial US-led invasion ousted the Taliban from power in 2001 following the September 11 attacks on U.S. soil. The U.S. negotiated a deal with the Taliban, which required the withdrawal of all foreign forces. The agreement brought an end to the two decades of occupation by the U.S. and other foreign countries, paving the way for the Taliban's advance. The Taliban were not defeated and gradually regained strength, carrying out numerous attacks on foreign and Afghan forces over the past 20 years. With the Taliban's control of the country virtually unopposed, they have been swift to reverse reforms and appear to be on a path of reinstating previously held policies.

The U.S. Embassy in Kabul suspended operations on August 31, 2021. While the U.S. government has withdrawn its personnel from Kabul, they continue to assist U.S. citizens and their families in Afghanistan from Doha, Qatar. It is advised to avoid all travel to Afghanistan due to the armed conflict.
Central African Republic
Risk Level: Extreme

Country Overview:

The security situation in the Central African Republic (CAR) is extremely dangerous. It is advised to avoid all travel to the CAR, if possible. Travel is unsafe due to civil unrest and crime. There is an extreme risk to personal safety and security because of sectarian violence by armed groups, in addition to common criminal activities, such as armed robbery, aggravated battery, and homicide.

The elections held in late 2020 and early 2021 were mired in violence and led to a six-month state of emergency, which has now expired. President Faustin Archange Touadéra was re-elected and formed a new government in June. Although there have been no specific incidents of violence or threats specifically targeting U.S. citizens, civil unrest, demonstrations, and post-election violence (including renewed outbreaks of armed conflict) continue to be a threat.

On November 30, 2021, at least 32 people were killed, including two regime soldiers, by suspected rebels in the Kaita and Bayengou villages, Ngaoundaye sub-prefecture, Ouham-Pendé prefecture. Further violence and unrest are likely in the near term. For essential travel to rural areas, avoid travel after dark and move only in convoy with a security escort. A national curfew is in place which comes into effect at 10pm and ends at 5am. You should follow the government's instructions and avoid travel around Bangui during these hours.

Avoid all but essential travel to the Central African Republic. Have appropriate personal security measures in place if travel to CAR is required.
Iran
Risk Level: Extreme

Country Overview:

The security situation in Iran is highly dangerous, with specific parts of the country being extremely unsafe. Travel to Iran is not advised due to the risk of arbitrary arrest and detention. Iran is also experiencing one of the highest incidences of COVID-19 in the Middle East. The risk of community transmission is high and extreme caution is advised. Iran has begun lifting its lockdown and resuming business activity.

U.S. citizens visiting or residing in Iran have been kidnapped, arrested, and detained on spurious charges. Iranian authorities continue to unjustly detain and imprison U.S. citizens, particularly dual national Iranian Americans, including students, journalists, business travelers, and academics—on charges including espionage and posing a threat to national security. Iranian authorities routinely delay consular access to detained U.S. citizens and consistently deny consular access to dual U.S.-Iranian citizens. The U.S. government does not have diplomatic or consular relations with the Islamic Republic of Iran. The U.S. government is unable to provide emergency services to U.S. citizens in Iran.

It is advised that all visitors to Iran avoid travel to border areas surrounding Iraq, Afghanistan, and Pakistan, including Sistan and Baluchistan province and areas east of Bam in Kerman province until further notice due to the risk of violent unrest and cross-border clashes. Visitors to eastern border regions are strongly advised to avoid loitering in the vicinity of military checkpoints, outposts, and personnel. For extended travel between cities, consider contracting a reputable local guide. Immediately report suspicious behavior and packages to local authorities. Be aware of traveling in convoy; the Iranian military regularly disguises troop movements by transporting them in unmarked vehicles, making convoys an attractive target for militants.
Iraq
Risk Level: Extreme

Country Overview:

The security situation in Iraq is extremely dangerous. It is advised to avoid travel to Iraq. Travel is unsafe due to terrorism, kidnapping, and armed conflict. There is also an extreme risk to personal safety and security because of active insurgent and terrorist groups, sectarian militias, and high levels of violence, including kidnappings, suicide bombings, and vehicle-borne or other improvised explosive devices (IEDs).

Iraq remains subject to regional tensions. Militia groups opposed to the western presence in Iraq continue to threaten Western interests in Iraq, including through attacks on Global Coalition military bases, diplomatic premises, and foreign nationals. The Global Coalition's announcement that it will transition to a non-combat role by 31 December 2021 may heighten tensions around this date.

On December 31, 2019, the Embassy suspended public consular services until further notice due to damage done by Iranian-backed terrorist attacks on the Embassy compound. U.S. Consulate General in Erbil remains open and continues to provide consular assistance. In mid-October 2018, the Department of State ordered the suspension of operations at the U.S. Consulate General in Basrah. That institution remains closed. Due to security concerns, U.S. Embassy personnel in Baghdad have been instructed not to use Baghdad International Airport.

Avoid areas near the Turkish, Syrian, and Iranian borders. There are continuous military operations against insurgent groups in the regions bordering Iraq and armed conflict at the Syrian border. U.S. citizens should not travel through Iraq to Syria to engage in armed conflict, where they would face extreme personal risks (kidnapping, injury, or death) and legal risks (arrest, fines, and expulsion). The Kurdistan Regional Government stated that it would impose prison sentences of up to ten years on individuals who illegally cross the border. Additionally, fighting on behalf of, or supporting designated terrorist organizations, is a crime that can result in penalties, including prison time and large fines in the United States.

It is advised to avoid all travel to Iraq.
Libya
Risk Level: Extreme

Country Overview:

The security situation in Libya is extremely dangerous. It is advised to avoid travel to Libya. Travel is unsafe due to armed conflict, terrorism, civil unrest, and crime. There is an extreme risk to personal safety and security because of high levels of terrorist activity and crime, including kidnapping for ransom, suicide bombings, and the use of vehicle-borne or other improvised explosive devices (IEDs). Crime levels in Libya remain high, including the threat of kidnapping for ransom. Westerners and U.S. citizens have been targets of these crimes. Terrorist groups continue plotting attacks in Libya. Violent extremist activity in Libya remains high, and extremist groups have made threats against U.S. government officials and citizens. Terrorists may attack with little or no warning, targeting tourist locations, hotels, transportation hubs, markets/shopping malls, and government facilities.

The 2021 Libyan presidential election was scheduled to be held, with the first round on December 24, 2021, and the second round on January 24, 2022. These were, however, postponed. Elections had previously been planned for early 2019 but were delayed due to Khalifa Haftar’s Western Libya campaign, after having earlier been planned for December 10, 2018. Election periods are often marred by unrest. On December 15, 2021, three different militia groups blocked buildings of the Libyan National Unity Government, including the Ministry of Defence, in Tripoli to denounce the upcoming elections. Clashes were also reported between the groups, resulting in power blackouts in parts of the city. Heightened security in the affected area is to be expected in the near term.

Outbreaks of violence between competing armed groups can occur with little warning and have the potential to impact U.S. citizens. The capital, Tripoli, and other cities, such as Surman, Al-Jufra, Misrata, Ajdabiya, Benghazi, Sabha, and Dernah, have witnessed fighting among armed groups as terrorist attacks. Hotels and airports frequented by Westerners have been the targets of these attacks. Even demonstrations intended to be peaceful can turn confrontational and escalate into violence. Militia or armed groups sometimes detain travelers for arbitrary reasons, do not grant detainees access to a lawyer or a legal process, and do not allow detainees to inform others of their status. U.S. citizens should carry proof of citizenship and valid immigration status at all times, but having these documents does not guarantee fair treatment.

Some international and national airports are closed, and flights out of operational airports are sporadic and may be canceled without warning. The U.S. government is very concerned about targeting commercial transportation in Libya and prohibits U.S. commercial aviation operations within Libyan airspace.

The U.S. government is unable to provide emergency or routine assistance to U.S. citizens in Libya, as the U.S. Embassy in Tripoli suspended its operations in July 2014.
Mali
Risk Level: Extreme

Country Overview:

The security situation in Mali is extremely dangerous. It is advised to avoid travel to Mali, if possible. Travel is unsafe due to political instability, crime, and terrorism. There is an extreme risk to personal safety and security because of terrorist activity and violent crimes such as kidnapping and armed robbery.

In Mali, violent crime is common such as kidnapping and armed robbery. Violent crime is prevalent during seasonal events and local holidays, especially in Mali's southern regions and Bamako suburbs. It is not uncommon to see random police checkpoints and roadblocks at night throughout the country. Armed groups and terrorists continually plague Mali with kidnappings and attacks with little or no warning. They often target nightclubs, restaurants, places of worship, hotels, Western diplomatic missions, and other locations that foreigners frequently visit.

Malian state presence, including law enforcement, schools, and other public services, generally does not exist in those areas outside of major cities. The country's northern parts continue to be plagued by insecurity due to terrorism and ongoing military operations. At the same time, central Mali, in the Segou and Mopti Regions, is unstable due to violent intercommunal conflict instigated by terrorist groups and armed attacks. In the Central and Northern territories of Mali, the U.S. government is unable to provide any emergency services to U.S. citizens due to U.S. government employees being restricted from traveling to the regions due to security concerns.

On 9 January, the Economic Community of West African States (ECOWAS) announced the closure of land and air borders between ECOWAS countries and Mali and the suspension of all non-essential commercial transactions between ECOWAS countries and Mali. ECOWAS announced the repositioning of sanctions and travel restrictions against Mali after President Goïta did not commit to holding new elections in February. Flights from Bamako to countries outside the West African region continue, but you should check with your airline before traveling.

Anti-government unrest is expected to continue, arising out over a host of issues. These include national strikes by police and teachers’ unions, arrests of anti-corruption activists, allegations of voter fraud in the March legislative elections, inter-communal clashes in northern and central regions, and the economic impact of the COVID-19 pandemic.
North Korea
Risk Level: Extreme

Country Overview:

The security situation remains volatile on the Korean peninsula, and North Korea's political tensions can change with little notice and with no warning. This poses an extreme risk to visitors.

Travel is unsafe due to the serious risk of arrest and long-term detention. In addition, U.S. passports are not valid for travel to, in, or through North Korea without a specific validation from the U.S. Department of State. Special validations are granted only in limited circumstances.

North Korea was one of the first countries to close its borders to the world at the outset of the COVID-19 pandemic. This has resulted in the country now experiencing extreme economic decline, and the U.N. estimates that the country is suffering severe food shortages.

The U.S. government is unable to provide emergency services to U.S. citizens in North Korea as it does not have diplomatic or consular relations with North Korea. Sweden serves as the protecting power for the United States in North Korea, providing limited emergency services. The North Korean Government routinely delays or denies Swedish officials’ access to detained U.S. citizens.
Country Overview:

The security situation in Somalia is extremely dangerous. Travel is unsafe due to crime, terrorism, and piracy. There is an extreme risk to personal safety and security because of terrorist activity and violent crime, such as kidnapping and murder, which is common throughout the country.

Al-Shabaab has lost control of a large portion of their southern and central Somalia territory due to the success of the Africa Union Mission in Somalia (AMISOM)-led Operation Indian Ocean offensive. Coupled with the regular cross-border fighting, Somalia has multiple violent risks that can endanger travelers and residents alike. There is a current outbreak of polio that has the potential to impact travelers. Medical facilities across Somalia have limited capacity and are often non-existent in rural areas.

Deadly attacks by Al-Shabaab continue. On November 25, 2021, at least eight people were killed and 17 injured, including schoolchildren, in a car bombing in Somalia’s capital. Al-Shabaab claimed that the bomb intended to strike a United Nations security convoy passing near a school in Mogadishu. The extremist group demonstrated its capacity to undertake mortar attacks throughout the country, with incidents recorded in Middle Shabelle, Gedo, and Bari regions in September 2021. The group also continued to impose blockades on urban centers in the Bakool region, notably Huddur and Wajid, causing food shortages. Meanwhile, clashes on September 30 broke out between Ahlu Sunna Waljama’a (ASWJ) militia and Galmudug state forces in the Bohol area (Galgaduud region).

Violent crime, such as kidnapping and murder, is common throughout Somalia, including Puntland and Somaliland. Illegal roadblocks are also widespread. Several schools acting as “cultural rehabilitation” facilities are operating throughout Somalia with unknown licensing and oversight. Reports of physical abuse and people being held against their will in these facilities are common.

Terrorists continue to plot kidnappings, bombings, and other attacks in Somalia. They may conduct attacks with little or no warning, targeting airports and seaports, government buildings, hotels, restaurants, shopping areas, and other areas where large crowds gather and Westerners frequent, as well as Government, military, and Western convoys. Among others, methods of attack can include car bombs, suicide bombers, individual attackers, and mortar fire.

The U.S. government has extremely limited ability to provide emergency services to U.S. citizens in Somalia due to the lack of permanent consular presence.
South Sudan
Risk Level: Extreme

Country Overview:

The security situation in South Sudan is extremely dangerous. Travel is unsafe due to crime and armed conflict. There is an extreme risk to personal safety and security because of armed clashes, border disputes, ethnic violence, and crime, including carjacking, shootings, ambushes, assaults, robberies, and kidnappings. Travelers to South Sudan should ensure that they have comprehensive contingency plans that do not depend on support from the Embassy.

Foreign nationals have been the victims of rape, sexual assault, armed robberies, and other violent crimes. Armed conflict is ongoing throughout the country and includes fighting between various political and ethnic groups, and weapons are readily available to the population. Journalist work is also highly dangerous and illegal without the proper documentation.

South Sudanese authorities have announced the closure of land borders, stay at home orders, travel restrictions, and other emergency conditions until further notice due to COVID-19.

It is advised to avoid all travel to South Sudan.
Sudan
Risk Level: Extreme

Country Overview:

The security situation in Sudan is extremely dangerous. Travel is unsafe due to crime, terrorism, kidnapping, and armed conflict. Armed conflict and criminal activity are particularly present in contested regions, although kidnappings, armed robberies, and carjacking occur in all parts of the country.

There has since been increased military activity in the capital city of Khartoum and nearby Omdurman, with bridges linking the two cities across the River Nile being closed off. Sudan’s journey to democratic rule has been fragile since the April 2019 military ouster of the long-time ruler Omar al-Bashir, after months of intense protests. A power-sharing agreement was then established to form a government involving the military, civilian representatives, and protest groups. On November 21, the military announced the return of Prime Minister Abdalla Hamdok to head a transitional government; however, the ongoing political crisis forced the resignation of the Prime Minister on 2 January 2022. Since then, protests have intensified across the whole nation. The telephone and internet services continue to be unreliable and have often been blocked at short notice in the past. There is a heightened risk of deterioration of the situation in Khartoum and elsewhere in Sudan.

Crime can occur, such as kidnapping, armed robbery, home invasion, and carjacking. This type of crime is more frequent outside of Khartoum. Members of known terrorist groups and individuals sympathetic to these groups in Sudan could attack with little or no warning, targeting foreign and local government facilities and areas frequented by Westerners. Demonstrations can occur with no warning. The most recent demonstrations in Khartoum have been peaceful. However, police and other security forces may intervene to disperse demonstrators, including with the use of tear gas, when protests occur near key governmental locations and impair freedom of movement.

Violence continues along the border between Chad and Sudan and areas near the border with South Sudan (including the disputed Abyei area). Armed opposition groups are active in Central Darfur state. Intercultural clashes can occur throughout the country and can result in the declaration of localized States of Emergency. The U.S. government has limited ability to provide emergency services to U.S. citizens outside of Khartoum, as U.S. government employees must obtain special authorization from the Sudanese Government to travel outside Khartoum.

It is advised to avoid all travel to Sudan.
Country Overview:

In Syria, the security situation is exceptionally dangerous. It is advised to avoid travel to Syria. Travel is unsafe due to armed conflict, terrorism, and civil unrest. There is an extreme risk to personal safety and security because no part of Syria is considered safe from violence. Widespread military operations involving chemical warfare, shelling, and aerial bombardment have significantly raised the risk of death or serious injury.

Anti-government protests have been quelled with deadly force by the Syrian regime, and Syria is also engaged in a full-scale civil war. The Government no longer controls vast swathes of the country, particularly in northern, southern, and eastern Syria and the Damascus suburbs. Some of the armed groups have utilized car bombs, improvised explosive device/indirect-fire attacks, sniper fire, and carried out kidnappings throughout the country. Violence is widespread throughout the country, and there is no area of Syria that is exempt from violence.

In 2012 the U.S. Embassy, located in Damascus, suspended its operations. Currently, the protecting power for the United States in Syria is provided by the Czech Republic. Consular services that the Czech Republic provides to U.S. citizens are extremely limited (to include accepting applications for U.S. passports and U.S. Consular Reports of Birth Abroad, as well as providing notarial services), and the U.S. government is unable to provide any emergency services to U.S. citizens in Syria. In Syria, U.S. citizens who seek consular services should try to leave the country and contact a U.S. embassy or consulate in a neighboring country quickly and safely.

Long-standing conflict with neighboring states and porous borders has contributed to a complex and unpredictable security environment. There is a continuous risk of kidnapping and detentions of U.S. citizens and Westerners throughout the country. U.S. citizens remain a target, with many abductions having occurred since mid-2012 and as recently as early 2019. U.S. citizens are targets of arbitrary abduction and detention by the Syrian Government and do not have access to medical attention or due process while in detention. The Government detention centers are known to be unsanitary facilities where inhumane, cruel, and degrading treatment of detainees have been documented, as well as torture and extrajudicial killings.

Several international commercial flights from and to Damascus International Airport are now operational. It is, however, advised to avoid all travel to Syria.
Venezuela
Risk Level: Extreme

Country Overview:

The security situation in Venezuela is extremely dangerous. Travel is unsafe due to ongoing political instability, crime, poor health infrastructure, and arbitrary arrest and detention of foreign nationals. Political marches and demonstrations, which occasionally become violent, are frequent in all areas, and crimes like homicide, armed robbery, kidnapping, drug trafficking, and carjacking are common.

Demonstrations typically elicit a strong police and security force response that includes tear gas, pepper spray, water cannons, and rubber bullets against participants and occasionally devolve into looting and vandalism. The United Nations Human Rights Council's Fact-Finding Mission reported that the regime has engaged in thousands of extrajudicial killings.

In addition, some of Venezuela's land and sea borders are subject to closure. U.S. citizens residing or traveling in Venezuela are advised to depart the country. Consular access to detained U.S. citizens is severely restricted, and the U.S. government is highly unlikely to be granted access. Security forces have arbitrarily detained U.S. citizens for long periods. Venezuelan authorities may not notify the U.S. government of the detention of a U.S. citizen.

Since March 11, 2019, the U.S. Department of State suspended all operations at the U.S. Embassy in Caracas and has withdrawn all diplomatic personnel from Venezuela. The U.S. has additionally suspended all nonstop flights between Venezuela and the U.S. until further notice. Around 150,000 troops, plus tanks, missile launchers, and aircraft, were deployed on the Colombian border amid renewed tensions between Bogota and Caracas.

There are shortages of food, electricity, water, medicine, and medical supplies throughout much of Venezuela, and it is advised to avoid all non-essential travel.
Yemen
Risk Level: Extreme

Country Overview:

The security situation in Yemen is extremely dangerous. Travel is unsafe due to armed conflict, terrorism, and civil unrest. There is an extreme risk to health and personal safety because of ongoing military conflict, heightened terrorist activity, kidnappings for ransom, and unlawful detentions by rebel groups. Employees of western organizations may be targeted for attack or kidnapping. Military conflict has caused significant destruction of infrastructure, housing, medical facilities, schools, and power and water utilities. This limits the availability of electricity, clean water, and medical care.

The U.S. Embassy in Sana’a suspended its operations in February 2015, and the U.S. government is unable to provide emergency services to U.S. citizens. Cholera is also present throughout Yemen, and the provision of adequate medical supplies is either extremely limited or unavailable.

There is a very high risk of kidnapping, and detention of U.S. citizens in Yemen, particularly dual national Yemeni Americans. Rebel groups in Sana’a have detained U.S. citizens, including dual Yemeni-American citizens. U.S. citizens, including dual nationals, have faced difficulty in departing Yemen, including lengthy delays.

It is advised to avoid all travel to Yemen.
Country Overview:

In some parts of Algeria, the security situation is highly dangerous, with specific areas being extremely unsafe. It is advised to exercise increased caution in Algeria due to terrorism. There is an overall moderate level of risk to personal safety and security because terrorists are likely to carry out attacks, including kidnappings, and civil disturbances sometimes occur throughout the country. Since February 2019, mass protests have taken place across Algeria in demand of immediate political reform. On June 2, 2019, Algeria's Constitutional Council announced the cancelation of presidential elections scheduled for July 4.

Travelers to the country should avoid political gatherings and demonstrations and follow local advice.

Avoid traveling to rural areas within 50 km (31 miles) of the border with Tunisia and within 250 km (155 miles) of Libya, Niger, Mali, and Mauritania due to terrorism and criminal activities, including kidnapping.

The Algerian Government has started to cut back on the restrictions in place to limit the spread of COVID-19 by allowing public transportation in cities to resume and by allowing more businesses to reopen.

The gradual easing of restrictive measures will be dependent on the evolution of COVID-19 cases in Algeria. Non-cargo international air and maritime travel remain closed. Masks are required in public spaces.
Azerbaijan
Risk Level: Moderate Risk

Country Overview:

The security situation in some parts of Azerbaijan is highly dangerous, with specific areas being extremely unsafe. It is advised to exercise increased caution in Azerbaijan due to terrorism and armed conflict risk. There is a moderate threat to personal safety and security because terrorist groups continue to plot attacks as casualty incidences occur in the Nagorno-Karabakh conflict with Armenia.

Azerbaijan and Armenia have seen the worst fighting in decades over the Nagorno-Karabakh disputed territory, with reports of over 1,000 civilian casualties. On November 9, 2020, a peace deal was signed by Russia, Armenia, and Azerbaijan, after six weeks of fighting between Azerbaijan and ethnic Armenians. Effective from November 10, the peace deal aims to resolve the dispute but is being seen as a win for Azerbaijan. The region is recognized internationally as Azerbaijani but has been governed by ethnic Armenians since 1994. Approximately 100,000 people have been displaced in Nagorno-Karabakh since the conflict re-erupted on September 27, 2020. Clashes between Azerbaijani and Armenian forces infrequently occur over the disputed region; however, with international assistance, the two countries reinstated the ceasefire relatively quickly after a flare-up.

The occasional use of artillery systems, including land mines and mortars, and intermittent gunfire, have resulted in casualties continuing to occur each year in the Nagorno-Karabakh conflict. Roads near the 'line of contact' and the international border between Armenia and Azerbaijan are to be avoided. Some areas still contain unexploded ordinances (UXO), and these include the towns and rayons of Ganja, Tartar, Barda, Beylagan, and Aghjabadi. Efforts to remove these UXO are currently underway, and it is advised not to touch or approach any UXO but rather warn Azerbaijani authorities immediately. The U.S. government employees are restricted from traveling to Azerbaijan, rendering it unable to provide emergency services to U.S. citizens in Nagorno-Karabakh.

Travelers are advised to avoid all travel to Nagorno-Karabakh and its surrounding regions.
Burkina Faso
Risk Level: High Risk

Country Overview:

The security situation in Burkina Faso is highly dangerous, with some parts of the country being extremely unsafe. It is advised to reconsider travel to Burkina Faso due to terrorism and crime. There is a high level of risk to personal safety and security because of terrorist activity and common violent crime.

The military announced on January 24, 2022, that it had seized the country's power by suspending the National Assembly and constitution and detaining the President and other high-ranking government officials. This follows heavy gunfire near military garrisons in Ouagadougou on January 23 and demonstrations in major cities in the previous days. The coup comes after violent unrest in the capital on 22 January 2022 and several waves of anti-government protests in the latter part of 2021, denouncing government inaction over continued violence against both civilians and security services in the country’s restive north by militants with ties to Islamic State and al Qaeda. Kabore’s election was itself tainted by violence in the north, which prevented much of the northern population from voting in the November 2020 elections.

The new military junta will continue to be faced with the problems that hampered Kabore's government, such as widespread insecurity and the prospect of sanctions following international condemnation of the coup. The African Union (AU) and Economic Community of West African States (ECOWAS) condemned the coup, and sanctions similar to those imposed on Mali and Guinea may now be imposed on Burkina Faso.

Air borders were suspended, and while they have re-opened, only a small number of flights are operating. Land borders were closed for private journeys and only open for humanitarian vehicles, necessary goods, and equipment destined for the defense and security forces. A nationwide curfew was introduced between 9 pm and 5 am. The curfew has since been removed, but a ban on festive events and public celebrations taking place after midnight on Monday to Thursday and after 2 am on Friday to Sunday has been implemented.

It is advised not to travel to the following parts of the country: all areas of the country north of Boulsa town; within 80km of the western border with Mali; Sahel and Est Regions; and Koulpélogo Province in Centre-Est Region. It is also advised to limit all but essential travel to the rest of Burkina Faso, including the capital Ouagadougou. All travel to Karpala, Balkui, and Rayongo (also known as Dayongo) neighborhoods of Ouagadougou’s Arrondissement 11 are restricted due to the potential for security operations.
**Burma (Myanmar)**

**Risk Level:** Moderate Risk

**Country Overview:**

The security situation in some parts of Myanmar is highly dangerous, with specific areas of the country being extremely unsafe. Due to civil unrest and armed conflict, it is advised to exercise increased caution in Myanmar. There is an overall moderate risk to personal safety and security because of fighting between the Myanmar military and various ethnic armed groups and militia forces.

It is advised to avoid all travel to Rakhine State due to civil unrest and armed conflict. Travel to townships in Chin State, Kayin State, Kachin State, and Shan State is not advised due to civil unrest and armed conflict. Travelers should avoid areas bordering China, Laos, Thailand, Bangladesh, and India.

On February 1, 2021, the former State Counsellor of Myanmar Aung San Suu Kyi was detained by the Myanmar military along with other senior figures from the ruling party over unsubstantiated claims of election fraud. Since the coup, pro and anti-military rallies have been held in Yangon and Mandalay daily and often escalate into violence, with security forces regularly firing live ammunition at protestors. Hundreds of protestors have been killed, including children, resulting in widespread international condemnation.

On August 1, 2021, Senior General Min Aung Hlaing declared himself Prime Minister, and August 2023 was the provisional date for new elections and an end to the state of emergency.

On December 6, 2021, Aung San Suu Kyi was found guilty and sentenced to 2 years in prison, and she awaits further charges and trials that will likely see her never leave prison.

There may be heightened tensions in Myanmar on and around February 1, 2022, the first anniversary of the 2021 military coup. Attacks against security forces and regime-affiliated personnel, businesses, and facilities cannot be ruled out. Protests could take place and could turn violent at any time. Security forces could use excessive and lethal force to retaliate and disperse crowds.

Travelers are advised to avoid all protests.
Country Overview:

The security situation in Burundi is highly dangerous, with some regions of the country being extremely unsafe. It is advised to reconsider travel to Burundi. There is a high risk to personal safety and security because of ongoing political tensions, sporadic violence, clashes by armed groups, and serious crimes, such as armed robbery.

It is advised to avoid all travel to Cibitoke and Bubanza provinces; areas of Bujumbura Rural province west of the Rusizi river towards the Democratic Republic of the Congo border, except for the Rusizi Delta Nature Reserve; Ruvubu National Park; the road north of Bujumbura airport towards Cibitoke; and the main road running west from Kayanza through the Kibira National Park. It is also advised to limit all but essential travel to the rest of Burundi (excluding airside transit through Bujumbura International Airport).

Within Burundi, the medical services are not on par with U.S. standards, and adequate trauma services are non-existent. Fire and Emergency medical services are limited or do not exist in some parts of Burundi. The CDC has issued a Level 1 Travel Notice on Malaria. Sporadic violence throughout the country is expected due to ongoing political tensions in Burundi. Freedom of movement can be hindered due to military and police checkpoints that are common in the country. In the past, weapon searches in the residence of private citizens have been conducted by police.

In Burundi, the U.S. government has limited ability to provide emergency services to U.S. citizens. As a consequence of travel restrictions on U.S. Embassy personnel, the U.S. government is not able to provide emergency services to U.S. citizens in the following areas of Burundi: the provinces of Bubanza and Cibitoke, Kibira National Park (including the park’s southernmost part in Muramvya province), and Ruvubu and Buriri Forest.
Country Risk Summaries Cont.

Cameroon
Risk Level: Moderate Risk

Country Overview:

The security situation in certain parts of Cameroon is extremely dangerous. It is advised to exercise increased caution in Cameroon due to crime, civil unrest, and terrorism. There is an overall moderate risk to personal safety and security because of terrorist activity in Northern and Eastern Cameroon and violent crime, such as kidnapping, armed robbery, assault, and common carjacking.

Armed separatists announced extended general strikes in Northwest and South-West regions in 2019. There have also been multiple clashes between security forces and armed groups over the past year in many places in Northwest and South-West regions, including in the towns of Bafut, Tubah, Ndu, Widikum, and in Lebialem division, the Gughe village, DongaMantung division, the Kikaikelaki village (Kumbo commune), Bui division, Bamessing village (Ndop commune), Ngoketunjia division. Travelers should be vigilant, keep a low profile, and monitor local media.

The Southern Cameroons Defence Forces (SOCADEF) announced a two-week ceasefire effective from March 29 amid the ongoing COVID-19 outbreak. The Ambazonia Defence Forces (ADF) militia was also not immediately expected to join the ceasefire in the Anglophone Southwest and Northwest regions. Limit outdoor exposure and exercise caution in the Anglophone Southwest and Northwest regions. Tensions remain high, and further unrest is likely.

It is advised to avoid travel to Far North Region; within 40km of the border with Nigeria, except Garoua in North Region; within 40km of the border with Chad; within 40km of the border with the Central African Republic (CAR); the Bakassi Peninsula; Northwest Region; and Southwest Region (including the towns of Buea, Muyuka, and Tiko in Fako Division), except Limbe in Fako Division. It is further advised to limit but essential travel to Limbe in the Fako Division of Southwest Region and the rest of North and Adamawa Regions, including Garoua in North Region.

Due to current official travel restrictions, the U.S. government has limited ability to provide emergency services to U.S. citizens in the North, Far North, Northwest, Southwest, and Parts of Adamawa and East Regions of Cameroon.
**Chad**

**Risk Level:** High Risk

**Country Overview:**

The security situation in Chad is highly dangerous, with some parts of the country being extremely unsafe. It is advised to reconsider travel to Chad due to crime, terrorism, and the existence of minefields. There is a high level of risk to personal safety and security because of widespread violent crimes, such as armed robbery and mugging, as well as terrorist attacks and minefields along the borders with Libya and Sudan.

It is advised not to travel at all to the following areas in Chad: areas within 30km of all borders, except for the capital N'Djamena (where it is advised to limit all but essential travel); within 30km of Lake Chad and the parts of Kanem and Lac regions to the west of the towns of Mao and Bol; the regions of Ennedi, and Tibesti; and the region of Borkou, except within 30km of the town of Faya Largeau (where it is advised to limit all but essential travel). It is further advised to limit all but essential travel to the remaining parts of the country, including the capital, N'Djamena, and the town of Faya Largeau.

The President of Chad Idriss Deby Itno was killed in battle while fighting rebels en route to N'Djamena, Chad's capital city. The military has taken control of the country in the interim, announcing that the late President's son, General Mahamat Idriss Deby Itno, would serve as interim head of state. Parliament and the Government have been dissolved and replaced by a transitional military council. The interim Government will operate for 18 months. All borders were closed, and a curfew was implemented as unrest was expected. The President's death comes just after he was declared the winner in the recent contested elections, which would have seen him head the state for the next six years.

The U.S. Government has extremely limited ability to provide emergency services to U.S. citizens in Chad as U.S. Government employees must obtain special authorization to travel outside of the capital, including the Lake Chad Basin.
Colombia
Risk Level: Moderate Risk

Country Overview:

In some parts of Colombia, the security situation is highly dangerous, with specific areas being extremely unsafe. It is advised to exercise increased caution in Colombia due to crime and terrorism. There is an overall moderate risk to personal safety and security because the National Liberation Army (ELN) continues to plot possible attacks, and violent and organized criminal activities, such as homicide, assault, armed robbery, extortion, and kidnapping, are common. On April 26, 2019, Colombia’s Trasandino oil pipeline was bombed in western Narino province, marking the seventh attack in recent times. Travelers should be vigilant and pay close attention to warnings issued by the Colombian authorities.

It is advised to avoid all travel to areas within 20km of the Venezuela and Ecuador border, except the Pan American Highway crossing at Ipiales. It is also advised to limit all but essential travel to the departments of Antioquia (except Medellín); Arauca; Caquetá; Cauca (except Popayán); Chocó (except its capital Quibdó and the whale-watching towns of Nuquí, Banía, Solano, and Capurganá); Guainía; Guaviare; Meta (except Villavicencio and the tourist site of Caño Cristales); Nariño (except Pasto and the border crossing of Ipiales); Norte de Santander; Putumayo; Valle de Cauca (except Cali); and Vichada.

The U.S. government has limited ability to provide emergency services to U.S. citizens as U.S. government personnel cannot travel to these areas because of security restrictions and limited domestic travel options.
Country Overview:

The security situation in specific parts of the Republic of the Congo is extremely dangerous. It is advised to exercise increased caution while in the country due to crime and civil unrest. There is an overall moderate risk to personal safety and security because violent crime, such as armed robbery and assault, is common. In addition, political demonstrations and armed clashes can be unpredictable.

It is advised to avoid all travel to the southern and western districts of the Pool region, including the Boko, Kindamba, Kinkala, Mayama, and Mindouli districts; the Mouyondzi district of Bouenza region; and within 50km of the border with the Central African Republic in Likouala region. It is further advised to limit all but essential travel to the Brazzaville region, except for the city of Brazzaville and the Ngabe district of the Pool region.

The U.S. government has limited ability to provide emergency services to U.S. citizens outside Brazzaville.
Cuba
Risk Level: Moderate Risk

Country Overview:

The security situation in Cuba is relatively stable and characterized by a strong military and police presence. American citizens should exercise increased caution due to health attacks targeting numerous U.S. Embassy employees. The personal safety and security of other travelers in Cuba may also be at risk. While there is no recent history of terrorism in Cuba, attacks cannot be ruled out.

On July 11, thousands of people took to the streets in Cuba to peacefully protest over the economy, shortages of medicines, the response to COVID-19, and harsh restrictions on freedom of expression and assembly. The protests evolved into thousands of people calling for an end to the 62-year-old communist regime in the country. They started in the western city of San Antonio de Los Baños and later spread to more than 40 cities and towns, including the capital Havana. State security forces responded heavy-handedly, resulting in over 100 arrests, internet service disruption, and the destruction of property. Hundreds of Cubans lined up outside police stations to look for missing relatives whose whereabouts were unknown.

Travelers to Cuba may experience border closures, airport closures, travel prohibitions, stay-at-home orders, business closures, and other emergency conditions within Cuba due to COVID-19. It is advised to avoid Hotel Nacional and Hotel Capri in Havana. If you experience any unusual acute auditory or sensory phenomena, immediately move to another area.

Raul Castro has retired and stepped down as the first secretary of the Communist Party of Cuba, transferring power to President Miguel Diaz-Canel. In the short term, little change is expected as Diaz-Canel is a staunch ally and supporter of the Castro family.

The U.S. has declared Cuba a state sponsor of terrorism and has imposed sanctions over human rights violations. All travelers wishing to enter Cuba are required to quarantine for 14 days due to COVID-19. Upon arrival, travelers will have to undergo a PCR test as well as a temperature screening.
Democratic Republic of the Congo (DRC)
Risk Level: High Risk

Country Overview:

In some areas of the Democratic Republic of the Congo (DRC), the security situation is highly dangerous, with extremely unsafe specific parts of the country. It is advised to reconsider travel to the DRC due to civil unrest and crime. It is recommended to reconsider travel to the DRC due to civil unrest and crime.

There is a high level of risk to personal safety and security because of the activities of rebels and other armed groups, potential civil unrest, and outbreaks of violence, including killing, rape, kidnapping, and pillaging. Avoid overland travel in rural areas in eastern Congo. Contract a private security escort with local experience for business-critical travel.

The Ebola outbreak was declared over on 16 December 2021. The outbreak began in North Kivu (Nord-Kivu) province, originating in Béni territory on July 17, 2019. There have been no new cases since 30 October. The World Health Organization had declared the outbreak to be a Public Health Emergency of International Concern (PHEIC). The WHO officials reported that the Ebola virus resulted in over 180,000 suspected cases with nearly 3600 deaths, mostly children under five.

It is advised to avoid all travel to the provinces of Kasai, Kasai Central, Kasai Oriental, Sud-Kivu, Nord-Kivu, Ituri, Maniema, Tanganyika, Bas-Uélé, and Haut-Uélé as there have been sporadic and severe outbreaks of violence targeting civilians, including killing, rape, kidnapping, and pillaging. It is further advised to limit all but essential travel to the rest of the country.
Ecuador  
Risk Level: Moderate Risk

Country Overview:
In some parts of Ecuador, the security situation is highly dangerous, with specific areas being extremely unsafe. Travelers are advised to exercise increased caution due to crime and terrorism. There is a heightened level of risk to personal safety and security in the northern border area with Colombia because it has a higher rate of crime, including kidnapping for ransom, than the rest of the country. Serious, sometimes violent, demonstrations and road blockades occurred throughout Ecuador in October 2019, disrupting inter-city, inter-provincial, and international travel. Demonstrations and blockades could occur again in any location with little to no warning.

Reports indicate a recent increase in violent crime in Guayaquil, including multiple targeted assassinations and attempted assassinations against port employees. There has been a recent increase in violent crime in the southern region of Guayaquil as well. Any official personnel traveling to the port should take additional security.

The Ecuadorian Government announced a State of Exception on October 22 in response to an uptick in cartel and gang violence that resulted in three large prison riots that left 223 people dead since early February 2021. There is an increased risk of gang violence and social unrest as the Government battles a growing gang presence coupled with protests over worsening economic conditions.

Crime, particularly violent crime, is a concern throughout Ecuador. Limited police and judicial resources contribute to Ecuador's overall high crime rate. Pickpocketing, purse snatching, robbery, and theft of travel documents are the crimes most committed against U.S. citizens. It is advised to avoid all travel within 20km of the border with Colombia, except for the official border crossing town of Tulcan in Carchi province. It is further recommended to limit all but essential travel to Sucumbios and Esmeraldas provinces.

Transnational crime groups operating in Esmeraldas province have engaged in violent crime and killed local citizens in addition to carrying out bombings targeting the Ecuadorian military and law enforcement. The U.S. government is limited in its ability to provide emergency services to U.S. citizens in the Colombian border area, as U.S. government personnel cannot travel to the provinces of Esmeraldas, Carchi, and Sucumbios without permission from the Embassy's security office. However, U.S. government personnel are permitted to travel to the northern bank of the Napo River in Sucumbios, an area approximately four miles wide, and the portion of Esmeraldas province that is south of Esmeraldas city.
Egypt
Risk Level: Moderate Risk

Country Overview:

The security situation in some parts of Egypt is highly dangerous, with specific areas of the country being extremely unsafe. Travelers to Egypt should exercise increased caution due to terrorism. There is an overall moderate risk to personal safety and security due to several extremist organizations operating in Egypt. It is advised to avoid traveling to the Governorate of North Sinai because of the significant increase in criminal activity and continued terrorist attacks on police and security forces.

It is also advised to limit all but essential travel to the Governorate of South Sinai, except for the area within the Sharm el-Sheikh perimeter barrier, which includes the airport and the areas of Sharm el Maya, Hadaba, Naama Bay, Sharks Bay, and Nabq (although travel by air to or from Sharm el-Sheikh is not recommended); and the area west of the Nile Valley and Nile Delta regions, excluding the coastal areas between the Nile Delta and Marsa Matruh.

Local law prohibits protesting or demonstrating without a permit. Being near anti-government protests can draw scrutiny from Egyptian police and security forces. U.S. citizens have been detained for participating in demonstrations and posting content on social media perceived as critical of Egypt or its allies.
Country Overview:

The security situation in some parts of Eritrea is extremely dangerous. It is advised to exercise increased caution in Eritrea due to travel restrictions, limited consular assistance, and political volatility. There is an overall moderate risk to personal safety and security because of ongoing instability, tensions with Ethiopia, and the presence of landmines. Landmines can be found in many remote areas in Eritrea, particularly in Nakfa, AdiKeih, Arezza, the 40 km-wide regions between the Mereb and Setit Rivers, and in the region north and west of Keren, areas near Ghinda, Massawa, Barentu, Agordat, Dekemhare, and south of Tessenea.

On Saturday, November 14, 2020, three rockets were fired at Asmara and seemed to have been aimed at the capital's airport. The leader of Ethiopia's northern Tigray region confirmed, on the following Sunday, that his forces fired the missiles. There has been a long-standing feud between Eritrea and the Tigray People's Liberation Front (TPLF). Eritrea could be drawn into the conflict between Tigray and Ethiopia, creating widespread concern for war escalation and further retaliation.

It is advised to avoid all travel within 25km of Eritrea's land borders, with the exceptions of the towns of Senafe and Tessenei, and the border crossings at Debay Sima – Burre, Serha – Zalambessa, and Kesadika (Adi Kuala) – Rama, plus the main paved roads leading to those crossings. All border crossings between Eritrea and Ethiopia are closed, and all foreign nationals, including diplomats, need to apply for a travel permit, well in advance, to leave Asmara.

In Eritrea, the U.S. government cannot provide emergency services to U.S. citizens because U.S. government employees must obtain special clearance to travel outside Asmara. Eritrean law enforcement officials regularly block access to foreign nationals in detention. Therefore, the U.S. Embassy may not receive notification or be allowed access to you if you are detained or arrested.
Ethiopia
Risk Level: Moderate Risk

Country Overview:

The security climate in some parts of Ethiopia is highly dangerous, with some country regions being extremely unsafe. It is advised to exercise increased caution in Ethiopia due to the potential for civil unrest, crime, and terrorism.

On February 15, 2022, the House of People’s Representatives announced the end of a nationwide state of emergency that lasted from November 2, 2021. Government forces have had recent success in pushing back Tigrayan rebel forces and have managed to retake towns and cities that had previously fallen to rebel forces. Travelers are advised to avoid traveling to Ethiopia and leave the country if they have not already done so due to the extreme risk and uncertainty of the conflict. People of the Oromo or Tigrayan ethnicity may still face scrutiny at airports or during police operations and should always be vigilant.

It is advised to avoid all travel to Ethiopia's Somali region and the border areas with Sudan, Eritrea, Kenya, and South Sudan, including the Gambela region. It is further advised to limit all but essential travel to the Danakil Desert in the Afar region and the Guji and Borena zones of the Oromia region. Due to recent outbreaks of violence and property destruction, it is advised to avoid travel to the Amhara region. Avoid travel to the East Hararge region and the Guji zone of Oromia State and the Benishangul Gumuz and the western part of Oromia State due to armed conflict and civil unrest.

The Government of Ethiopia has restricted or shut down the internet, cellular data, and phone services during and after civil unrest. These restrictions impede the U.S. Embassy's ability to communicate with and provide consular services to U.S. citizens in Ethiopia. The U.S. Embassy has limited ability to provide emergency services to U.S. citizens outside of Addis Ababa.
Georgia
Risk Level: Low Risk

Country Overview:

The security situation in some areas of Georgia is dangerous, with specific parts of the country being extremely unsafe. Though it is advised to exercise normal safety precautions in Georgia, avoid travel to the Russian-occupied regions of South Ossetia and Abkhazia due to civil unrest, crime, and landmines. There is a heightened risk to personal safety and security in these parts of Georgia because Russian troops and border guards occupy both regions. Several attacks, criminal incidents, and kidnappings have occurred.

It is advised to avoid all travel to South Ossetia and Abkhazia's breakaway regions and limit all but essential travel to areas near the Administrative Boundary Lines with Abkhazia and South Ossetia. Entering these Russian-occupied territories will likely result in arrest, imprisonment, or a fine.

Local authorities indicated that all public transport was suspended, and moving around cities and towns for non-emergency reasons was banned in Samegrelo-Zemo Svaneti due to COVID-19. Checkpoints are set up at borders between municipalities to control vehicular traffic, and military, police, and health personnel reinforce directives.

The U.S. government is unable to provide emergency services to U.S. citizens traveling in South Ossetia and Abkhazia.

[Map indicating travel advisory levels]
Country Overview:

The security situation in Haiti is unstable and extremely dangerous. It is advised to reconsider travel to Haiti due to civil unrest and crime. There is a high risk to personal safety and security due to the widespread violent and unpredictable demonstrations in Port-au-Prince and elsewhere in the country.

Haiti has been gripped by a series of violent protests and riots since early July 2018, leaving dozens of people dead. What began as social unrest in response to a proposed government hike in fuel prices has since morphed into an anti-corruption protest campaign, with deadly violence reigniting in November 2018 and again in February and September-December 2019 with sporadic killings reported at protests throughout 2020. The country is currently plagued by severe fuel shortages, which have impacted essential service provision countrywide. Medical services, electricity, and communications have been heavily affected. Travelers are advised to ensure they have adequate supplies for their stay.

The Haitian President, Jovenel Moïse, during the night of 6-7 July, was assassinated at his private residence in Port-au-Prince during an attack. Martine Moïse, The First Lady, was also severely injured. The following day, Claude Joseph declared his leadership as Interim Prime Minister and issued an executive order instating a state of siege for 15 days. While the situation remained relatively calm, a resurgence of gang violence was observed over the following days.

It is advised to reconsider all travel to Haiti and, in particular, to avoid the Bel Air, Carrefour, Cité Soleil, and Martissant neighborhoods in Port-au-Prince. Do not drive through roadblocks, and if you come across a roadblock, turn around and get to a safe area. Travelers are sometimes followed, violently attacked, and robbed shortly after leaving Port-au-Prince. The U.S. Embassy requires its personnel to use official transportation to and from the airport. Robbers and carjackers have attacked private vehicles stuck in heavy traffic congestion and often target lone drivers, particularly women driving alone.
Country Risk Summaries Cont.

**Honduras**  
Risk Level: **High Risk**

**Country Overview:**

The security situation in Honduras is highly dangerous, with a specific part of the country being extremely unsafe. It is advised to reconsider travel to Honduras due to crime. There is a heightened risk to personal safety and security because of violent crimes, such as homicide and armed robbery.

Protests have regularly occurred across Honduras since June 2019. Travelers should obey the advice of local authorities and avoid all demonstrations. In addition, there has been a sharp increase in cases of dengue fever in Honduras, particularly in the departments of Cortés, Yoro, Olancho, and Santa Bárbara. As a result, the Honduran Government has declared a state of emergency. Travelers should monitor local media for updates.

Gracias a Dios is an isolated region with high criminal activity and drug trafficking levels. Infrastructure is weak, government services are limited, and police and military presence is scarce. It is advised to avoid all travel to Gracias a Dios Department and limit all travel to the rest of the country unless it's essential.

Preventative measures and restrictions are in place, including a nationwide curfew from 8 pm to 5 am. Local authorities have set specific time slots during which you can leave your home once within ten days. These are set according to your national I.D. card number. You must wear face-covering in public. If you violate the restrictions, you could be fined for endangering public health. Obey the instructions of local authorities, including those related to physical distancing. Avoid crowded areas.

The U.S. government has limited ability to provide emergency services to U.S. citizens in Gracias a Dios.
India
Risk Level: Moderate Risk

Country Overview:

The security situation in some parts of India is highly dangerous, with specific areas of the country being extremely unsafe. It is advised to exercise increased caution in India due to crime and terrorism. There is an overall moderate risk to personal safety and security because of terrorist and insurgent activity, civil unrest and the potential for armed conflict, and violent crime, such as sexual assault.

Following a terrorist attack in the Kashmir region on February 14, 2019, tensions have been heightened between India and Pakistan. On August 5, 2019, India's Government announced constitutional changes that will affect Jammu and Kashmir's internal political status. An increased security presence is now in place.

India has set a global record with daily COVID-19 infections topping 300,000. People are desperate to find hospital beds and oxygen cylinders in a health system struggling to manage the caseload and buckling under the strain in some parts of the country. Authorities had permitted a relaxation of measures that were put into place to control the spread of COVID-19, particularly allowing large gatherings, which is seen as leading to the severity of increased wave infections. There are also concerns that a new strain of COVID-19 may be more infectious. Emergency measures implemented in New Delhi have resulted in the mass movement of migrant workers returning home to their villages.

The Indian Government has agreed to repeal the controversial agriculture laws that sparked widespread and prolonged farmer protests in many parts of the country. This should bring an end to the years-long protests that rocked the country and threatened electoral success for the ruling BJP in forthcoming elections.

It is advised to avoid all travel to Jammu and Kashmir (except the Ladakh region) and the India-Pakistan border (except Atari crossing). It is also advised to limit all but essential travel to the Northeastern states (Assam, except Guwahati, Nagaland, and Manipur), Chhattisgarh, and neighboring states' border areas.
Israel
Risk Level: Moderate Risk

Country Overview:

The security situation in Israel, the West Bank, and Gaza is unstable, and certain areas are extremely unsafe. Travelers to Israel or the Palestinian Territories are advised to exercise increased caution due to terrorism, civil unrest, and armed conflict. There is an overall moderate risk to personal safety and security because of clashes between Palestinians and Israeli authorities.

Travelers to Israel should remain vigilant following the latest cross-border hostilities between Israel and Palestinians in Gaza. Overall violence involved militants in Gaza firing more than 4000 rockets into southern Israel, with hundreds of Israeli airstrikes launched in response. Egypt has facilitated a ceasefire between Israel and Gaza which came into effect on May 21, 2021. The peace remains fragile and is likely to be tested in the near future. It is advised to limit all but essential travel to the West Bank and within 5km of Gaza, and to avoid all travel to Gaza and the following areas of the Golan Heights: East of Route 98, Shebaa Farms, Ghajjar, and within 500m of the border with Lebanon east of Metula, including the northern edge of town.

The Catholic Easter, Orthodox Easter, Passover, and Ramadan will all coincide in April 2022. This could heighten tensions between the groups should these holidays overlap with the Jewish high holidays of Succoth, Passover, Yom Kippur, and Rosh Hashana, especially after Friday prayers and religious holidays and anniversaries. Previous clashes have occurred, and travelers are advised to steer clear of demonstrations and highly charged confrontations.

Israel has stepped up its campaign against Iran as the U.S. and Iran are engaged in talks with the E.U. to restore the JCPOA, more commonly known as the Iran Nuclear Deal. Israeli spy networks have targeted Iranian sites related to their uranium enrichment program. This has led to Iran-backed forces engaging in rocket attacks on Israel. Rising tensions in the region are likely to see further aggressive acts in the short term.
Kenya
Risk Level: Moderate Risk

Country Overview:

In some areas of Kenya, the security situation is highly dangerous, with specific parts of the country being extremely unsafe. It is advised to exercise increased caution in Kenya due to terrorism, health issues, and crime. There is an overall moderate risk to personal safety and security because of terrorist attacks and violent crimes, such as armed carjacking, mugging, home invasion, and kidnapping.

On January 15, 2019, the Islamic militant group Al-Shabaab attacked the Dusit D2 complex in Nairobi, killing more than 20 people and injuring dozens more. U.S. State Department has warned that credible information indicates that westerners may be targeted by extremists in Nairobi, coastal areas of Kenya, and the towns of Naivasha and Nanyuki.

Cholera cases have also been detected in the counties of Narok, Kajiado, Garissa, and Machakos. Travelers are advised to monitor the latest updates from the World Health Organization.

It is advised to limit all but essential travel to Turkana County, coastal areas from Lamu county to Mombasa and its outskirts, and the A2 highway from Isiolo to Moyale due to crime. It is also advised to avoid all travel to border regions with Somalia, South Sudan, and Ethiopia.
Lebanon
Risk Level: High Risk

Country Overview:

The security situation in Lebanon is highly dangerous, with some parts of the country being extremely unsafe. It is advised to reconsider travel to Lebanon due to crime, terrorism, and armed conflict. There is a high level of risk to personal safety and security because of terrorist activity, armed clashes, kidnapping, and outbreaks of violence near Lebanon's borders with Syria and Israel.

Lebanon has witnessed frequent demonstrations by protesters seeking changes in Government since October of 2019. While some protests have been peaceful, most have involved violence. U.S. citizens in Lebanon should keep clear of demonstrations and exert caution if in the proximity of any large gatherings or protests. In the current period of civil unrest, protesters have blocked major roads, including the primary route to the U.S. Embassy and the direct road between downtown Beirut and Rafiq Hariri International Airport. It is advised to avoid all travel to Palestinian refugee camps, the Hermel Area, including Arsal, Ras Baalbek, Qaa, Laboué, and Nahleh; and within 5km of the border with Syria and Israel due to potential for armed conflict.

It is advised to limit all but essential travel to Beirut's southern suburbs. This includes the neighborhoods of Bir assan, Ghobeiry, Chuya, Haret Hraik, Burj Al Brajne, Mraije, Er Rouais, and Laylake. This excludes the main airport highway, the Beirut-Saida (Sidon) road and west of the coast, and the region between the airport highway and the coast south of Abbas El Mousawi Road.

It is further advised to limit all but essential travel to all other territories of Akkar district between 3 miles (5km) from the Syrian border and the Halba, Aabdeh, and Qoubaiyat highway, including the towns of Halba and Qoubaiyat; the city of Tripoli; the town of Brital, and the area around it up to 3 miles (5km) from the Syrian border, and south of Nahleh town. This excludes Baalbek town; the towns of Rachaiya, Hasbaya, and Khiam, and the area between these towns up to 3 miles (5km) from the Syrian border; within 500m of the Ain el Hilweh Palestinian refugee camp in Saida (Sidon); and south of the Litani River except the main Naqoura-Tyre-Saida (Sidon)-Beirut highway and all districts to the west of it.

The Lebanese Government cannot assure the protection of U.S. citizens against sudden eruptions of violence. Neighborhood, Family, or sectarian disputes can spiral out of control quickly and, in turn, can lead to gunfire or other violence with no clear warning. In Beirut, along the Lebanese borders, and in refugee settlements, armed clashes have occurred. The Lebanese Armed Forces have been deployed to quell the violence in these situations.
Mauritania
Risk Level: High Risk

Country Overview:

The security situation in Mauritania is highly dangerous, and specific parts of the country are extremely unsafe. It is advised to reconsider travel to Mauritania due to crime and terrorism. There is a high level of risk to personal safety and security because of activities by terrorist groups and violent crimes, such as mugging, armed robbery, kidnapping, rape, and assault.

It is advised to avoid travel to the province of Tiris Zemmour (except the town of Zouéré); the province of Adrar (east of Atar); the provinces of Tagant, Hodh el Chargui, Hodh el Gharbi, Assaba, and Guidimaka; and within 25km of the Western Sahara border (except the Nouakchott - Nouadhibou corridor).

The Government of Mauritania designates certain areas off-limits to foreigners and most Mauritians. These “No Movement Zones” are extremely dangerous due to their proximity to Mali, where armed groups engaged in an active insurgency carry out cross-border attacks into Mauritania. Negative PCR test results are required upon entry due to COVID-19.

The U.S. government has limited ability to provide emergency services to U.S. citizens in Mauritania as U.S. government employees must obtain special authorization to travel outside Nouakchott.
Mexico
Risk Level: Moderate Risk

Country Overview:

The security situation in some parts of Mexico is highly dangerous, with specific areas of the country being extremely unsafe. Travelers to Mexico should exercise increased caution due to crime. There is a high level of risk to personal safety and security in certain areas because of widespread violent crime, such as homicide, kidnapping, carjacking, and robbery.

It is advised to avoid all travel to Colima state, Guerrero state, Michoacán state, Sinaloa state, and Tamaulipas state. It is further advised to limit all but essential travel to Chihuahua state, Coahuila state, Durango state, Estado de Mexico state, Jalisco state, Morelos state, Nayarit state, Nuevo Leon state, San Luis Potosi state, Sonora state, and Zacatecas state. Violent crime – such as homicide, kidnapping, carjacking, and robbery is widespread. Armed criminal groups have targeted and robbed commercial vessels, oil platforms, and offshore supply vessels in the Bay of Campeche.

Mexico is experiencing severe drought, impacting about 85% of the country. Mexico City is suffering the worst drought in 30 years, with officials concerned about meeting water demands in the city. Lake Cuitzeo has shrunk by 75%, exacerbated by deforestation and infrastructure development. In turn, the dry lake beds are creating dust storms leading to additional health problems in the surrounding communities.

Mexico is experiencing high levels of COVID-19 infections and has registered amongst the highest in the world for deaths due to the virus. Stay-at-home orders have been lifted in some areas, and some transportation and business operations have resumed. Travelers are advised against traveling to Mexico.
Niger
Risk Level: High Risk

Country Overview:

The security situation in Niger is highly dangerous, with large parts of the country being extremely unsafe. It is advised to reconsider travel to Niger due to crime and terrorism. There is a high level of risk to personal safety and security because of terrorist attacks, kidnapping threats, and violent crimes, such as armed robbery. The threat of terrorist attacks remains high, with attacks targeting government facilities, local and foreign.

It is advised not to travel at all to the following parts of Niger: all areas of the country north of the city of Abalak, including the Aïr Massif region; the province of Agadez (including the road linking Assamakato Agadez and the city of Agadez); areas of Tahoua province north of the city of Tahoua, including the city itself; the area of Tillabéri province north of Niamey, including the road from Niamey to Gao and the road from Niamey to Menaka; areas within 40km of the border with Nigeria in Diffa, Zinder, and Maradi provinces; and the Parc du W, plus the contiguous Dosso and Tamou hunting zones. It is further advised to limit all but essential travel to the rest of Niger, including the capital city Niamey.

The U.S. government has limited ability to provide emergency services to U.S. citizens in remote and rural areas as U.S. government employees must obtain special authorization to travel outside of the capital.
Nigeria
Risk Level: High Risk

Country Overview:
The security situation in Nigeria is highly dangerous, and specific parts of the country are extremely unsafe. It is advised to reconsider travel to Nigeria due to crime, terrorism, and piracy. There is a high level of risk to personal safety and security because of the threat posed by extremist organizations, kidnappings, and violent crimes, such as armed robbery, assault, carjacking, and rape.

Since October 13, 2020, multiple demonstrations have occurred nationwide, including areas within Lagos and Abuja's districts, protesting Nigeria’s Special Anti-Robbery Squad (SARS). Although most demonstrations are peaceful, some have become violent and have shut down major thoroughfares and bridges. Travelers should exercise caution, monitor local media, and avoid crowds or demonstrations. Nigeria has also been experiencing weeks of renewed protests and civil unrest against police brutality, since the shooting of a young Nigerian by a SARS police officer, on October 3, 2020. These protests have seen extreme violence and retaliation by police forces, resulting in the killing of 51 civilians and 18 security forces.

Throughout 2020, the number of kidnappings in Nigeria, particularly in the northern and Middle Belt states, has steadily increased compared to previous years. From December 20, 2020, to February 17, 2021, at least 37 people were killed, and 266 others were abducted across the country. Gangs and unidentified individuals have carried out the overwhelming majority of these attacks, but Boko Haram militants were behind some of them in northeast Nigeria. Even though the kidnappings often end without bloodshed once a ransom is paid, these attacks can result in injuries and fatalities as criminal groups usually fire indiscriminately at vehicles to stop them. Reconsider overland travel across the country until further notice due to an ongoing spike in kidnapping-for-ransom and bandit attacks.

It is advised to avoid travel to Borno State, Yobe State; Adamawa State; Gombe State; riverine areas of Delta, Bayelsa, Rivers, Akwa Ibom, and the Cross River States; and within 20km of the border with Niger in Zamfara State. It is also advised to limit all but essential travel to Bauchi State; Zamfara State; Kano State; Kaduna State; Jigawa State; Katsina State; Kogi State; within 20km of the border with Niger in Sokoto and Kebbi States; non-riverine areas of Delta, Bayelsa and Rivers States; and Abia State.

Despite the Government's aggressive efforts since the virus first appeared, the number of cases in the country has continued to rise. Strict measures, including localized lockdowns targeting hotspots, curfews, and non-essential business closures, have failed to curb the viral spread and periodically triggered violent protests.
Pakistan
Risk Level: High Risk

Country Overview:
The security situation in Pakistan is highly dangerous, and a significant part of the country is extremely unsafe. It is advised to reconsider travel to Pakistan due to terrorism. There is a high risk to personal safety and security because terrorist attacks remain frequent and political demonstrations often become violent. Travelers should continue to exercise caution, monitor news reports, and follow the advice of local authorities. On May 11, 2019, armed militants attacked the Pearl Continental Hotel in Gwadar, in Balochistan province, killing five people and adding to the current tension surrounding Pakistani-administered Kashmir areas.

Pakistan is experiencing a Dengue Fever outbreak, with over 47,000 recorded cases and 75 deaths thus far. Dengue Fever, coupled with the outbreak of COVID-19, resulted in the Pakistan Civil Aviation Authority extending the suspension of international flights. The Government of Pakistan started permitting commercial outbound passenger flights from all international airports, except Gwadar and Turbat, from May 30. Inbound passenger flights from the United Kingdom are suspended due to the new COVID-19 strain.

It is advised to avoid all travel to Balochistan; the Federally Administered Tribal Areas; Khyber-Pakhtunkhwa (excluding Chitral district); and border areas with Afghanistan and India (excluding Lahore, Wagah, Kasur, Narowal, and Sialkot). It is recommended to limit all but essential travel to the rest of Pakistan.

Terrorist groups continue organizing attacks in Pakistan. A local history of terrorism and ongoing ideological aspirations of violence by extremist groups has led to indiscriminate attacks on civilians, local military, and police targets. Terrorists may attack with little or no warning, targeting transportation hubs, markets, shopping malls, military installations, airports, universities, tourist locations, schools, hospitals, places of worship, and government facilities. Terrorists have targeted U.S. diplomats and diplomatic facilities in the past.

The U.S. government is restricted in providing emergency services to U.S. citizens in Pakistan due to the security environment.
Panama
Risk Level: Low Risk

Country Overview:

The security situation in Panama is relatively safe, but a specific region within the country has an extreme risk due to the presence of criminal elements and the operation of drug and human trafficking networks. Moreover, emergency response and consular assistance are limited in some areas. Overall, travelers should exercise normal precautions in Panama. It is advised to avoid all travel to parts of the Darién Region, Mosquito Gulf, and particularly all areas south of Yaviza.

There may be demonstrations to protest internal Panamanian issues or, more rarely, manifestations of anti-American sentiment. While most demonstrations are non-violent, the Panamanian National Police have used tear gas and riot control munitions in response to demonstrations, particularly when roadways are blocked or aggression is used against the police. Panama City, Colon, and Chiriquí provinces have the highest crime rates. Crimes include shootings, home invasions, rapes, armed robberies, muggings, and thefts.

Panama authorities have relaxed the movement restrictions implemented to prevent the spread of COVID-19 but have enacted a daily curfew from 7:00 pm to 5:00 am, including all day Sunday. If arriving with a positive COVID-19 result, travelers will be required to quarantine for seven days and undertake another PCR test.

The U.S. government has limited ability to provide emergency services to U.S. citizens in this region as U.S. government personnel must obtain prior approval before traveling there and face additional restrictions before such travel is approved.
Philippines
Risk Level: **Moderate Risk**

**Country Overview:**

In some parts of the Philippines, the security situation is highly dangerous, with specific areas being extremely unsafe. It is advised to exercise increased caution throughout the country due to crime, terrorism, and civil unrest. There is a high level of risk to personal safety and security because of occasional kidnappings and bombings and widespread criminal activity, such as con games, pickpocketing, internet scams, and credit/ATM card fraud. Travelers should keep up to date with local information and avoid any demonstrations. The Philippines has seen a resurgence in the Poliovirus nationwide, and it is advised that travelers consult their doctor before travel. There have also been numerous cases of Dengue fever which has now exceeded the epidemic threshold.

It is advised to avoid all travel to western and central Mindanao and the Sulu Archipelago (including the southern Sulu Sea) because of terrorist activity and clashes between the military and insurgent groups. Limit all travel unless it is crucial to the remainder of Mindanao (excluding Siargao Islands, Dinagat, and Camiguin) and the south of Cebu province, including the municipalities of Badian and Dalaguete and the surrounding areas leading to Badian and Dalaguete, due to the threat of terrorism.

Terrorist and armed groups continue to organize plans for bombings, possible kidnappings, and other offensive maneuvers in the Philippines. Armed groups and terrorists may attack with little or no warning, targeting shopping malls and markets, tourist locations, as well as local government facilities. The Philippine Government has declared a “State of National Emergency on Account of Lawless Violence in Mindanao.”

Authorities have permitted foreign nationals with long-term visas to enter the Philippines subject to proof of a negative COVID-19 test. Quarantine measures remain in place for the Manila Metro, Bulacan, Cavite, Laguna, and Rizal. Face masks are mandatory on public transport and in public spaces.
Russia
Risk Level: Moderate Risk

Country Overview:

In some parts of Russia, the security situation is highly dangerous, with specific areas being extremely unsafe. It is advised to exercise increased caution in Russia due to terrorism, harassment, and the arbitrary enforcement of local laws. There is an overall moderate risk to personal safety and security throughout the rest of the country due to terrorist groups continuing to plot attacks.

It is advised to avoid all travel to parts of the North Caucasus region (including the Mount Elbrus area), such as Chechnya, Dagestan, Ingushetia, North Ossetia, and the southeast part of Stavropol bordering Chechnya, Kabardino-Balkaria, and Karachay-Cherkessia; and within 10km of the border with the Ukrainian Donetsk and Lugansk Oblasts. It is further advised to limit all but essential travel to the Ukrainian Kharkiv Oblast within 20km of the border.

Do not travel to Crimea as the international community, including the United States and Ukraine, does not recognize Russia’s purported annexation of Crimea. There are continuing abuses against foreigners and the local population by the occupation authorities in Crimea, particularly against those who challenge their influence on the peninsula. Russia enforces special restrictions on dual U.S.-Russian nationals and may refuse to acknowledge dual U.S.-Russia nationals’ U.S. citizenship, including denying U.S. consular assistance to detained dual citizens and preventing their departure from Russia. Due to the Russian government-imposed reduction on U.S. diplomatic personnel, the U.S. government may have delayed the ability to provide services to U.S. citizens, especially in the Saint Petersburg area.

Russia has begun easing the restrictions put in place to combat the spread of COVID-19. Russia has restricted entry to most foreign nationals except for medical specialists and members of diplomatic missions.
Saudi Arabia
Risk Level: Moderate Risk

Country Overview:

In some parts of Saudi Arabia, the security situation is highly dangerous, with specific areas being extremely unsafe. It is advised to exercise increased caution in Saudi Arabia due to terrorism and armed conflict. There is an overall moderate risk to personal safety and security because terrorist groups continue plotting possible attacks in the country, and rebel groups operating in Yemen have launched missiles, drones, and IEDs into Saudi Arabia, specifically targeting populated areas.

It is advised to avoid all travel within 50 miles of the Saudi-Yemen border. This includes the cities of Jizan and Najran and Qatif in the Eastern province and its suburbs, including Awamiyah. Abha International Airport also falls in this avoid advisory.

Regional forces hostile to Saudi Arabia have conducted destructive and sometimes lethal attacks against various targets, including critical infrastructure, airports, military facilities, energy facilities throughout the country, and targeting vessels in Red Sea shipping lanes. The civilian airport in Abha, areas close to Jeddah, Riyadh, Yanbu, military deployments in the south, and specific oil and gas establishments are all examples of recent targeted attacks. The Islamic Republic of Iran (IRI) has supplied Yemen-based Houthis and other regional proxy groups with weapons, including missiles, rockets, and drones. Houthi militants continue to organize and conduct attacks against locations in Saudi Arabia. Violence associated with Iran-supported groups represents a significant threat. U.S. citizens living and working near military bases and critical civilian infrastructure, particularly in the areas near the border with Yemen and the Eastern Province, are at heightened risk of missile and drone attack.
**Tunisia**

Risk Level: **Moderate Risk**

**Country Overview:**

In some parts of Tunisia, the security situation is highly dangerous, with specific areas being extremely unsafe. It is advised to exercise increased caution in Tunisia due to terrorism. Terrorist groups active in the country pose a significant threat to travelers in the region. On June 27, 2019, two suicide attacks targeting security personnel in central Tunis killed at least one police officer and wounded several people. A state of emergency has been in effect since November 24, 2015, after a suicide attack on a police bus. The state of emergency has been extended numerous times, with February 2022 being the most recent.

Tunisian security forces clashed with demonstrators in several cities for four consecutive nights from January 18, 2021. The towns affected include Ettadhamen and other areas of Tunis and Sfax, Gafsa, Le Kef, Bizerte, Kasserine, Sousse, and Monastir. The protests were sparked by economic hardship in the country that the COVID-19 pandemic has exacerbated. Around 1,000 people have been detained since the protests began.

On July 26, 2021, President Kais Saied removed the Prime Minister and suspended Parliament. He has also dissolved the cabinet. This is in response to the widespread protests calling for the dismissal of the Prime Minister and the Parliament due to a spike in COVID-19 cases exacerbating the country’s economic crisis. Critics have labeled the move a coup, and civil society groups are demanding a timeline for political action and restoration of the Parliament. As the political crisis continues, protests and violence are likely. Comply with all directives, including curfew orders, seek shelter at the first signs of unrest and monitor local media for situational updates.

It is advised to avoid all travel to the Mount Chaambi National Park area, including the town of Kasserine, areas along the Libyan border, including the town of Ben Guerdane and the immediate surrounding area, and the militarized zone south of the towns of El Borma and Dhehiba. It is also advised to limit all but essential travel to areas south of, including the towns of Nefta, Douz, Medenine, and Zaris; and the Governorates of Le Kef, Jendouba, and Sidi Bou Zid.

The U.S. government has limited ability to provide emergency services to U.S. citizens in some areas of Tunisia.
Country Risk Summaries Cont.

Turkey
Risk Level: Moderate Risk

Country Overview:

The security situation in some parts of Turkey is highly dangerous, with specific areas of the country considered extremely unsafe. It is advised to reconsider travel to Turkey due to terrorism and arbitrary detentions.

There is a high level of risk to personal safety and security because terrorist groups continue to plot attacks in Turkey. Government security officials have detained individuals on scant or secret grounds that have appeared to be mostly politically motivated.

Turkey is currently experiencing severe wildfires across its southern provinces. Eight people have died, and dozens of villages have been evacuated. The Turkish Coastguard implemented a sea rescue of over 4000 tourists from beach resorts, and a power plant in Mugla province had to be evacuated. President Erdogan has declared parts of the affected provinces disaster zones. Travelers should reconsider travel to southern Turkey in the near future.

It is advised to avoid all travel within 10km of the border with Syria and to the city of Diyarbakir. It is further advised to limit all but essential travel to the provinces of Batman, Bingol, Bitlis, Diyarbakir, Gaziantep, Hakkari, Hatay, Kilis, Mardin, Sanliurfa, Siirt, Sirnak, Tunceli, and Van.

Authorities have reopened the country's land, sea, and air borders. All travelers displaying symptoms are required to submit to a PCR test and quarantine if the test is positive. Face masks are mandatory in public spaces.
Ukraine
Risk Level: Moderate Risk

Country Overview:

The security situation in eastern Ukraine is perilous, with some areas considered highly unsafe. It is advised to exercise increased caution throughout Ukraine due to crime and civil unrest.

There is currently a heightened risk to personal safety and security in specific parts of eastern Ukraine because of armed conflict with occupying authorities in non-government-controlled areas.

Russia has had a pattern of military build-ups near Ukraine's eastern border and illegally annexed Crimea since late March 2021. From November 2021, there has been significant media coverage of heightened tensions between Russia and Ukraine. The continued build-up of Russian forces along its borders with Ukraine since January 2022 has increased the threat of military action. Russia continues to occupy and has attempted to annex Ukraine's Crimean peninsula, and there is extensive Russian Federation military presence in Crimea. Russian-led forces also continue to control the Donetsk and Luhansk oblasts, where the ongoing armed conflict has resulted in more than 13,000 deaths.

There has been a sharp increase of COVID-19 cases in Ukraine. However, the Government of Ukraine has announced the gradual easing of specific COVID-19 quarantine measures under an “adaptive quarantine” plan, according to which services and institutions will reopen in stages.

Occupation authorities reportedly abused and arbitrarily imprisoned both foreigners and some of the local population. They particularly target individuals who are seen as opposing Russia’s occupation of the peninsula. It is advised to avoid all travel to Donetsk Oblast, Luhansk Oblast, and Crimea due to arbitrary detentions and other abuses by Russian authorities.

Crime targeting foreigners and property is common. There are regular demonstrations in Ukraine, including Kyiv, that have often turned violent. There has also been the occurrence of politically targeted assassinations and bombings. There are reports of violent attacks on minority groups and police by radical groups. As the Russian threat of invasion grows, several countries, including the U.S., have moved to withdraw their Embassy staff from Ukraine. The U.S. government prohibits its employees from traveling to Crimea and cannot provide emergency services to U.S. citizens in Crimea. U.S. citizens in Ukraine have been advised to depart immediately via commercial or private means.

The U.S. Embassy Kyiv has suspended routine American Citizen services until further notice in response to a sharp increase of COVID-19 cases in Ukraine. However, the Government of Ukraine has announced the gradual easing of specific COVID-19 quarantine measures under an “adaptive quarantine” plan, according to which services and institutions will reopen in stages.
