College Station, TX 77840-7896

THE TEXAS A&M UNIVERSITY SYSTEM was officially established in 1948 and has evolved into one of the largest systems of higher education in the nation, with a statewide network of 12 universities, including our flagship, Texas A&M University, and 11 regional universities across the state. Additionally, the A&M System provides service and education to the people of Texas and beyond through eight state agencies, Texas A&M-Fort Worth, Texas A&M-RELLIS and the A&M System administration office.

Each of the A&M System members has its own unique mission, history and goals. Together, they provide research, educational programs and community enhancement services that improve the lives of people in Texas and around the world.

In fall of 2025, enrollments at A&M System universities totaled approximately 175,000 students. In addition, Texas A&M AgriLife Extension makes more than 25 million educational contacts annually through its service and outreach programs.

With more than 30,000 faculty and staff positions, the A&M System has a physical presence in 250 of the state's 254 counties and a programmatic presence in every county. The A&M System has real property holdings totaling more than 70,000 surface acres and 65,000 mineral acres.

Systemwide, externally funded research expenditures exceed \$1.5 billion to help drive the state's economy.

The A&M System, with a total operating budget of \$8.1 billion, is governed by a nine-member Board of Regents. A nonvoting student member was added in 2006. The regents appoint the chancellor, the chief executive officer who oversees the direction and operation of the A&M System. The A&M System's role is governed by the state's education code, Title 3, chiefly Ch. 51, Sec. 51.353 and Ch. 85, Sec. 85.17.

Board of Regents

tamus.edu/regents

Robert L. Albritton was appointed to the Board of Regents by Governor Greg Abbott in 2015 and reappointed in 2021. He was elected Vice Chairman of the Board in 2023 and was elected Chairman of the Board in 2025. He serves as ex-officio of the Committee on Academic and Student Affairs, Committee on Audit, Committee on Buildings and Physical Plant, Committee on Finance, and Committee on Research. He serves as a liaison to the 12th Man Foundation. He graduated with honors from Texas A&M University receiving a double major in Economics and Marketing. His term expires February 1, 2027.

Jay C. Graham was appointed to the Board of Regents by Governor Greg Abbott in 2019 and reappointed in 2025. He was elected Vice Chairman of the Board in 2025. He serves as a member of the Committee on Buildings and Physical Plant, of the Committee on Finance, and of the Committee on Research. He serves as Vice Chairman of The Texas/Texas A&M Investment Management Company (UTIMCO), and a member of the University Lands Advisory Board. He received a Bachelor of Science in petroleum engineering from Texas A&M University. His term expires February 1, 2031.

David C. Baggett was appointed to the Board of Regents by Governor Greg Abbott in 2023. He serves as Chairman of the Committee on Finance and as a member of the Committee on Buildings and Physical Plant, and the Committee on Research. Mr. Baggett also serves as a member of The Texas/Texas A&M Investment Management Company (UTIMCO) and the Board for Lease of University Lands. He graduated with honors with a Bachelor of Business Administration in Accounting from Texas A&M University. His term expires February 1, 2029.

John W. Bellinger was appointed to the Board of Regents by Governor Greg Abbott in 2023. He serves as Chairman of the Committee on Research and as a member of the Committee on Audit, and the Committee on Academic and Student Affairs. He was appointed in 2025 to serve as a member of the University Lands Advisory Board. He received a bachelor's degree in Agricultural Education and a master's degree in Animal Science from Texas A&M University. His term expires February 1, 2029.

James R. "Randy" Brooks was appointed to the Board of Regents by Governor Greg Abbott in 2021. He is serving his second term as Chairman of the Committee on Buildings and Physical Plant and serves as a member of the Committee on Audit. He serves as a liaison to the Development Foundations of A&M System Members. He received a Bachelor of Science in Economics from Texas A&M University. His term expires February 1, 2027.

Michael A. "Mike" Hernandez III was appointed to the Board of Regents by Governor Greg Abbott in 2019 and reappointed in 2025. He serves as Chairman of the Committee on Audit and as a member of the Committee on Buildings and Physical Plant. He also serves as a liaison to The Association of Former Students. He received a Bachelor of Science in Industrial Distribution from Texas A&M University. His term expires February 1, 2031.

William "Bill" Mahomes Jr. was appointed to the Board of Regents by Governor Greg Abbott in 2015 and reappointed in 2021. He was elected Vice Chairman of the Board in 2021 and was elected Chairman of the Board in 2023. He serves as a member of the Committee on Academic and Student Affairs, of the Committee on Audit, and of the Committee on Research. He received his bachelor's degree from Texas A&M University and a Juris Doctorate from The University of Texas School of Law. His term expires February 1, 2027.

Kelley Sullivan Georgiades was appointed to the Board of Regents by Governor Greg Abbott in 2025. She serves as a member of the Committee on Academic and Student Affairs, of the Committee on Finance, and of the Committee on Research. She also serves as a liaison to the George & Barbara Bush Foundation. She received a Bachelor of Arts in Communications from Texas A&M University. Her term expires February 1, 2031.

R. Sam Torn was appointed to the Board of Regents by Governor Greg Abbott in 2023. He serves as Chairman of the Committee on Academic and Student Affairs and as a member of the Committee on Finance. He received a Bachelor of Business Administration in Finance from Texas A&M University. His term expires February 1, 2029.

Jaquavous S. Doucette is a senior majoring in mass communications with a minor in criminal justice at Prairie View A&M University. He is a first-generation college student who has served as Director of the Campus Activities Board, Mister Sophomore on the PVAMU Royal Court, Deputy Chief of Staff for the Student Government Association and was elected SGA President. In 2024, he was nationally recognized as an AT&T Rising Future Maker. He was appointed Student Regent to the Board of Regents by Governor Greg Abbott. He is serving a one-year term to expire May 31, 2026.

Chancellor

Glenn Hegar '93 became chancellor of The Texas A&M University System in July 2025 and leads one of the largest higher education systems in the nation. He was raised on a farm in the town of Hockley, just outside Houston. While he earned his degree in political science at Texas A&M, he started college at a community college closer to home so he could keep helping on the family farm. Hegar spent most of his career as an elected official, serving as a state representative, state senator and the State Comptroller of Public Accounts. Known for hands-on leadership and a commitment to public service, Hegar is focused on cultivating the potential of the A&M System to build generations of Texas leaders.

chancellor.tamus.edu

Frequently Asked Questions

What is The Texas A&M University System?

The A&M System is one of the largest systems of higher education in the nation, with a statewide network of 12 universities and eight state agencies. A&M System universities educate approximately 175,000 students and reach another 25.3 million people through service each year. With more than 30,000 faculty and staff, the A&M System has a physical presence in 250 of the state’s 254 counties and a programmatic presence in every one. System-wide, externally funded research expenditures exceed \$1.5 billion to help drive the state’s economy.

When was the A&M System established?

The A&M System was officially established in 1948. The original members were Texas A&M University, Prairie View A&M University, Tarleton State University, Texas A&M Forest Service, Texas A&M Engineering Experiment Station, Texas A&M Engineering Extension Service, Texas A&M AgriLife Extension Service (formerly Texas Cooperative Extension) and Texas A&M AgriLife Research (formerly Texas Agricultural Experiment Station).

Today, the A&M System provides oversight and leadership for 12 universities and eight state agencies. Its role is governed by the state’s education code (Title 3, chiefly Ch. 51, Sec. 51.353 and Ch. 85, Sec. 85.17). Responsibilities include system-wide planning, coordination and execution of the policies of The Texas A&M University System Board of Regents.

What does “A” and “M” stand for?

Texas A&M University, the state’s first public institution of higher education, was opened on Oct. 4, 1876 as the Agricultural and Mechanical College of Texas. Texas A&M was part of the nation’s land-grant college system established by the Morrill Act of 1862. Prairie View A&M was added to the land-grant system through Morrill Act of 1890, which extended benefits to colleges serving black students.

When Texas A&M gained university status in 1963, the “A&M” was incorporated into the official name in deference to the institution’s history and traditions, but the individual letters no longer explicitly stand for anything.

The A&M System is the state’s land-grant system. What does that mean?

A land-grant college or university is an institution that has been designated by its state legislature or Congress to receive the benefits of the Morrill Act of 1862 and 1890. The original mission of these institutions, as set forth in the first Morrill Act, was to teach agriculture, military tactics and the mechanical arts, as well as classical studies so that members of the working classes could obtain a practical education.

The A&M System’s agencies, which conduct research and bring practical applications of research findings to the people of Texas, also came out of the land-grant system. There is now at least one land-grant institution in every state and territory of the United States, as well as in the District of Columbia.

How is the A&M System governed?

The A&M System is governed by a nine-member Board of Regents, appointed by the governor and confirmed by the Texas Senate for six-year terms. A nonvoting student member was added in 2006. The A&M System chancellor oversees the day-to-day administration, and each of the A&M System’s members has a president, CEO or director.

What is the mission of the A&M System?

The mission of the A&M System is to provide education, conduct research, commercialize technology, offer training and deliver services for the people of Texas and beyond through its universities and state agencies.

Does the A&M System have a central admissions office?

No. Students must contact directly the preferred A&M System institution’s admission office. Information about these institutions can be found on the system’s website, tamus.edu.

TEXAS A&M UNIVERSITY, the state's first and largest institution of higher learning, graduates leaders who positively impact their professions and communities.

In 2024, *The Wall Street Journal*, named Texas A&M the Best University In Texas and No. 1 in the Southeastern Conference.

The university's world-class faculty includes recipients of the Nobel Prize and Wolf Prize, and 57 members of the National Academies. Research expenditures totaled more than \$1.393 billion in fiscal year 2024.

Texas A&M offers undergraduate, graduate and professional degrees through more than 450 programs at the College

Station campus, branch campuses in Galveston and Qatar, a School of Law in Fort Worth, Texas A&M Health (with locations statewide) and a higher education center in McAllen.

TEXAS A&M UNIVERSITY
1246 TAMU, College Station, TX 77843 | 979-845-3211

TEXAS A&M UNIVERSITY AT GALVESTON is the marine and maritime branch campus of Texas A&M, dedicated to driving the blue economy through education, innovation and training. The campus is home to the Texas A&M College of Marine Sciences and Maritime Studies and the Texas A&M Maritime Academy.

The college is the Gulf's premier marine and maritime academic and research destination, featuring internationally renowned faculty and degree programs tailored to students' passion for everything above, on and below the waves, including marine sciences, business, blue humanities, maritime transportation and marine engineering technology.

The maritime academy is one of six state maritime academies in the U.S. and the only one located along the Gulf. Training over 400 cadets annually, the academy prepares students to serve as professionals, afloat and ashore, or to enter military service upon graduation.

Galveston Aggies live and learn surrounded by marine life, coastal ecosystems, and one of the largest industrial hubs in the world. With smaller class sizes, 70+ student organizations and waterfront views, students enjoy the Texas A&M experience with an island twist.

TEXAS A&M UNIVERSITY AT GALVESTON
PO Box 1675, Galveston, TX 77553 | 877-322-4443

TEXAS A&M UNIVERSITY HIGHER EDUCATION CENTER AT McALLEN is one of the nation's most unique community partnerships. Texas A&M University partnered with community and industry leaders throughout the Rio Grande Valley to create programs that meet the workforce needs of the region. The McAllen center offers nine bachelor's degrees: agricultural economics, biomedical sciences, construction science, education-math/science middle grades, human resource development, interdisciplinary engineering, maritime business administration, multidisciplinary engineering technology and public health.

The Texas A&M Health Nursing Education and Research Building will open near the center in spring 2026, housing the College of Nursing's traditional bachelor of science in nursing program and the College of Veterinary Medicine and Biomedical Sciences (VMBS) One Health program to provide veterinary telehealth services, a research laboratory and additional educational opportunities.

With courses taught by accredited Texas A&M faculty, students are eligible to earn the Aggie Ring and a diploma from one of the world's leading universities, while also benefitting from the financial advantages of living close to home in the Rio Grande Valley.

In August 2023, the Board of Regents of The Texas A&M University System sanctioned the establishment of the **TEXAS A&M UNIVERSITY SPACE INSTITUTE**. This visionary institute is poised to play a pivotal role in amplifying Texas's prominence as a frontrunner in the burgeoning space economy. The institute is dedicated to leading groundbreaking discoveries, technological advancements and health innovations. Collaborative efforts will be the cornerstone of the institute's approach, as Texas A&M's engineers, scientists, physicians and students join forces with counterparts from other universities, industry, and government. Together, these multidisciplinary teams will undertake cutting-edge research aimed at ensuring the safety and success of forthcoming space missions, with a special focus on lunar and Mars exploration.

The institute's activities will be centered around a state-of-the-art facility next to the Johnson Space Center. This facility, distinguished by its lunar and Mars testing grounds, will serve as a hub for research, mission development and training across three vital domains: engineering design, development and testing; science curation; and space health and medicine. Furthermore, the institute will champion aerospace workforce education and training programs, ensuring a steady stream of skilled professionals ready to contribute to the future of space exploration.

PRAIRIE VIEW A&M UNIVERSITY is the second oldest public institution in the state of Texas. It is a Historically Black College/ University (HBCU) that, since its inception in 1876, has opened its doors to anyone seeking a transformative student experience and world-class academic programs.

Home to nearly 10,000 students, the University is situated on one of the most beautiful campuses in the country. PVAMU has built an unparalleled reputation for empowering bold thinkers to push boundaries, challenge norms, and transform the world. Mentioned in the Texas State Constitution as an "institution of the first class," PVAMU began as an agricultural, industrial, and teachers' school but has

evolved to meet changing societal demands.

The University boasts more than 120 degree programs from the bachelor's to doctoral levels through its ten colleges and schools, including engineering, architecture, public and allied health, the arts, education, business, nursing, and agriculture. PVAMU, a Carnegie-classified R2 institution for high research activity, remains committed to advancing its land-grant mission through excellence in teaching, research, and service.

TARLETON STATE UNIVERSITY has provided an affordable, first-class education for 125 years. With 89 undergraduate, 36 graduate and four doctorate degree offerings available, the institution inspires discovery, leadership and service.

Classes are available in Stephenville, Fort Worth, Waco, Bryan and online. Last year Tarleton State served over 17,000 students from 228 Texas counties, 48 states and 40 countries. Additionally, over 3,100 students from more than 70 Texas school districts are participating in Tarleton Today, a dual enrollment program that allows students to earn university credit in agricultural and STEM areas while completing high school.

Tarleton State belongs to an elite group, as only four percent of U.S. universities hold the distinction of being classified as Doctoral Universities – High Research Activity by the Carnegie Classification of Institutions of Higher Education.

The university is experiencing unprecedented growth due to strategic expansion. This includes the establishment of a cutting-edge Event Center, a state-of-the-art headquarters dedicated to research and economic development, a Health Professions Building, and the addition of the Interprofessional Education Building on the Fort Worth campus.

TARLETON STATE UNIVERSITY

TEXAS A&M INTERNATIONAL UNIVERSITY (TAMIU) is a vibrant international university at home in the dynamic multicultural and multilingual crossroads of Laredo.

Daily, TAMIU provides over 8,700 students with a transformative learning environment sustained by a global faculty delivering the highest quality academic programs. A solid foundation is offered in the arts and sciences, business, education, and nursing, enabling broad research opportunities with a special focus on the U.S.-México border.

Former ranchland, the 300-acre campus welcomes a diverse student body with 122+ student clubs and organizations that create an

energetic, thriving campus life. Service-learning fuels dynamic community engagement, while study abroad programs manifest TAMIU's international perspective.

For 55 years, TAMIU has prided itself on delivering accessible, affordable, and exceptional higher education for all. Its innovative campus, faculty, and programs help students harness their dreams to create the reality they want and deserve.

TAMIU's programs are proudly infused with an international focus on study, leadership, understanding across all disciplines, and a commitment to lifelong learning.

TEXAS A&M UNIVERSITY-CORPUS CHRISTI is the only university in the nation located on its own island. With palm tree-lined pathways, nearby natural wetlands, and pristine views of the bay and beach, TAMU-CC blends coastal living with coastal learning.

The Island University is known for its top-quality academic programs where undergraduate, master's, and doctoral students can choose from more than 85 degree programs. Our students, including transfer students and military veterans, benefit from award-winning support services.

Islander Impact is made through hands-on research, innovation, leadership, community service, and civic engagement. Our impact

also resonates globally through the work of more than 40 centers and labs, including the Harte Research Institute for Gulf of Mexico Studies, the Autonomy Research Institute, and the Conrad Blucher Institute for Surveying and Science. TAMU-CC has achieved the prestigious R2 Carnegie Classification for High Research Activity.

TAMU-CC offers a scenic island campus, outstanding academics, nationally recognized faculty, a vibrant student life, Division I athletics, and more than \$140M in scholarships and aid each year.

TEXAS A&M UNIVERSITY-CORPUS CHRISTI

TEXAS A&M UNIVERSITY-KINGSVILLE has represented excellence and innovation in South Texas for a century. The university offers a complete college experience on a vibrant campus with a variety of undergraduate and graduate programs developed to meet the growing economic needs of Texas and beyond.

Degrees include well-known programs in engineering, animal and wildlife sciences, music and education; it also has growing programs in veterinary technology, kinesiology, social work, business administration and taxation.

Texas A&M-Kingsville is home to nationally and internationally recognized research centers, including the National Natural Toxins Research Center, the Caesar Kleberg Wildlife Research Institute, the Citrus Center, and the King Ranch Institute for Ranch Management. Helpful staff and faculty create a sense of community that extends beyond the campus. They are committed to students' success

Texas A&M-Kingsville ranks among the top seven percent of universities nationwide for social mobility, continuing the institution's legacy of changing the trajectory of graduates' lives.

WEST TEXAS A&M UNIVERSITY, a regional research university, is redefining excellence in Canyon, Texas, on a 342-acre residential campus, as well as the Harrington Academic Hall WTAMU Amarillo Center in downtown Amarillo.

Established in 1910, the university has been part of The Texas A&M University System since 1990.

WT boasts an enrollment of more than 9,000 and offers 58 undergraduate degree programs, one associate degree, and 44 graduate degrees, including an integrated bachelor's and master's degree, a specialist degree and two doctoral degrees.

WT is home to the Veterinary Education, Research & Outreach program and the Charles W. Graham DVM Texas A&M Veterinary Medical Diagnostic Laboratory, increasing WT's already significant contributions to the agricultural field.

The university is also home to the Panhandle-Plains Historical Museum, the largest history museum in the state and the home of one of the Southwest's finest art collections. The Buffaloes are a member of the NCAA Division II Lone Star Conference and offer 14 men's and women's athletics programs.

EAST TEXAS A&M UNIVERSITY is dedicated to transforming lives through quality education. The university offers 140+ academic degrees taught by world-class faculty. With an enrollment of nearly 13,000 and a 19:1 student-to-faculty ratio, East Texas A&M offers a personalized education.

Campus highlights include a state-of-the-art simulation hospital, a 1,300-acre research farm, and the prestigious "All-Steinway" School of Music. An innovative gamebird research center and an agricultural multipurpose center are set to open by spring 2026.

East Texas A&M ranks in the top 25% of U.S. universities for social mobility, reflecting its dedication to student success. Founded in 1889 as a teachers' college, the university is a top producer of Texas educators. It also stands out as a national leader in competency-based education with flexible programs for working adults.

As a member of the Southland Conference, East Texas A&M features 14 NCAA Division I athletic teams. A vibrant student experience includes a thriving Greek community and 95+ student-led organizations.

East Texas A&M offers classes online and on-site in Commerce, Dallas, Corsicana, McKinney, Mesquite, and Bryan (RELLIS Academic Alliance).

TEXAS A&M UNIVERSITY-TEXARKANA is a comprehensive, regional four-year university nestled on a beautiful 375-acre, lake-front campus located in the piney woods of east Texas near the borders of Arkansas, Louisiana, and Oklahoma.

A&M-Texarkana is an ascendant university that offers students an exceptional educational experience both inside and outside the classroom. A&M-Texarkana offers dozens of academic programs in high demand fields, and consistently works with business and industry partners to implement new programs and degrees that meet the needs of the modern job market and prepare graduates for workplace success in their chosen field.

The university provides a high-quality education to learners of all ages by providing access to world-class professors via flexible learning experiences offered online, hybrid, or face-to-face. With more than 40 student organizations, Greek life, intramural sports, leadership programs, 17 intercollegiate sports, and volunteer organizations, all students are encouraged to Think BIG, Dream BIG, and Do BIG.

TEXAS A&M UNIVERSITY-CENTRAL TEXAS offers upper-division coursework leading to baccalaureate degrees and graduate coursework leading to master's degrees.

The only public university in Texas that exclusively recruits and serves transfer students at the baccalaureate level, A&M-Central Texas is an exceptional option for community college students, as well as those individuals with some college but no degree. At A&M-Central Texas, undergraduate students may select from 30 baccalaureate and 19 graduate programs. As one of the most affordable public universities in Texas, A&M-Central Texas offers its students an innovative array of financial assistance, including a tuition maximum for 12 credit hours

regardless of the number of hours taken and an option to guarantee that tuition and fees will not change for up to three years.

Degree programs at A&M-Central Texas are offered through three colleges: Arts and Sciences; Business Administration; and Education and Human Development. Programs are designed to provide personalized learning experiences whether delivered on-campus, online or through innovative hybrid models.

TEXAS A&M UNIVERSITY-SAN ANTONIO is a comprehensive four-year public university that reflects the culturally diverse, heritage-rich community it serves. Situated on nearly 700 acres in South San Antonio, the University offers over 60 undergraduate and graduate degrees to nearly 8,000 students. It offers the lowest undergraduate tuition of any four-year university in San Antonio. The university's world-class faculty prepares students for rewarding careers, responsible global citizenship, and lifelong learning.

Approximately 65 percent of all A&M-San Antonio students are Hispanic, and 67 percent are the first in their family to attend college. A&M-San Antonio is a military-embracing institution and was awarded

the 2024 Gold Veteran Education Excellence Recognition Award from the Texas Veterans Commission.

In 2024, A&M-San Antonio celebrated major milestones, including opening the Student Recreation Center, as well as Estrella Hall, its second on-campus residence hall. The university also broke ground on a new state-of-the-art Public Health and Education Building and began the inaugural season for its men's and women's basketball teams.

affordable higher education for students of all ages and walks of life.

A&M-Victoria was founded in 1973 as part of the University of Houston System. During the 89th legislative session, the Texas Legislature voted to move what was the University of Houston-Victoria into The Texas A&M University System, making A&M-Victoria the 12th institution in the system.

TEXAS A&M UNIVERSITY-VICTORIA is a small university in the Coastal Bend region of South Texas. It is a dynamic destination that serves the educational needs, promotes the economic well-being and advances the quality of life on campus and in the community through teaching, research and service excellence.

The university enrolled more than 3,500 students during the fall of 2024 and offers undergraduate and graduate degrees in four colleges: Business, Education & Health Professions, Liberal Arts & Social Sciences, and Natural & Applied Science. Programs are offered online and face to face in Victoria. The university is dedicated to offering a quality and

NUMEROUS RESEARCH TRAINING AREAS

The **RELLIS ACADEMIC ALLIANCE**, located in Bryan, is home to the only academic alliance in the nation that combines a major university system and a community college in one location. Designed to provide a seamless educational experience, students can take freshman- and sophomore- level courses with the Blinn College District before transferring to an on campus university partner to earn a bachelor's degree.

The state-of-the-art RELLIS Campus spans 279,000 square feet and includes the Blinn College Walter C. Schwartz building and the RELLIS Academic Complex. Opened in August 2019, the complex serves up to 2,500 students and features over 20 classrooms, faculty offices,

collaborative spaces, a learning resource center, student life offices, and modern labs for engineering, allied health, and upper-division science.

The second building in the RELLIS Academic Complex was opened in January 2021 and includes classrooms and laboratories incorporating innovative teaching and technology, as well as faculty offices and spaces for student collaboration. Most notably, the building provides the labs and classrooms for engineering offerings.

TEXAS A&M-RELLIS is a 2,400-acre campus for advanced research, high-tech development, and hands-on career training.

Located eight miles from the Texas A&M University campus, RELLIS offers more than one million square feet of labs and offices for applied research. It hosts projects in unmanned aircraft systems, automotive technology, next-gen communications, computational mechanics, meat sciences, smart power grids, advanced manufacturing, animal reproductive biotechnology, robotics, building infrastructure, and military modernization, among other areas.

Along with being the home to a unique academic alliance, RELLIS is home to the Texas A&M Transportation Institute, the Center for Infrastructure Renewal, the George H.W. Bush Combat Development Complex, the future Meat Science & Technology Center, and numerous other facilities for developing innovative solutions for the world's toughest problems. RELLIS offers a gateway to the abundant assets of the entire Texas A&M University System for partners from government, industry, other universities, and the public sector.

At Texas A&M-RELLIS, tomorrow is a big day.

THREE COMPONENTS

Research Integration Center, Ballistic Aero-optics and Materials Range, Innovation Proving Ground

The **GEORGE H.W. BUSH COMBAT DEVELOPMENT COMPLEX (BCDC)** at Texas A&M-RELLIS is a unique campus of high-tech facilities and expert capabilities for advancing important national security technologies.

Established in 2019 through a partnership with U.S. Army Futures Command, BCDC hosts research, development, testing, and evaluation of new technologies with military or space applications. Renowned Texas A&M researchers collaborate on projects with counterparts at other universities, industry, the U.S. military, NASA and national labs.

Its Innovation Proving Ground (IPG) is a set of obstacle courses that are engineered and instrumented for precise testing of battlefield drones, autonomous ground vehicles and the associated communications technology needed to confront a high-tech adversary.

Its Ballistic Aero-Optics Range (BAM) is a half-kilometer enclosed range for experimental testing of systems for hypersonic flight, for directed energy — lasers — and for materials that can withstand hypervelocity impacts.

ESTABLISHED 2023

FIRST BUILDING OPENS.....2026

SYSTEM MEMBERS 8

TEXAS A&M-FORT WORTH serves as the anchor campus for the city's first Innovation District in one of the nation's fastest-growing metros. As a Tier One research and education hub, the campus supports workforce development, research, technology and service programs from across the Texas A&M System—including two universities and six state agencies: Texas A&M University, Tarleton State University, and Texas A&M's engineering, agriculture, transportation and emergency management divisions.

The multi-unit campus will establish a strong presence in downtown Fort Worth. More than just a physical footprint, it represents a new approach to higher education. Texas A&M-Fort Worth is designed to

serve as a catalyst for economic vitality and regional growth in North Texas by bringing together education, research, industry and community in ways that strengthen the workforce and drive innovation.

Fort Worth is home to the Texas A&M School of Law (law.tamu.edu). Upon completion of the first building in 2026, the law school will expand into the Law and Education Building alongside other Texas A&M System members, creating new opportunities for cross-collaboration. The School of Law has been an important component, providing a strong foundation for the campus and its future impact on North Texas.

THE TEXAS A&M UNIVERSITY

TEXAS A&M INNOVATION

innovation.tamug.edu

TEXAS A&M INNOVATION
175 Century Square One, Suite 200,
College Station, TX 77840 | 979-246-0500

TEXAS A&M INNOVATION champions creativity and ingenuity across The Texas A&M University System by helping inventors transform ideas into real-world impact. With a focus on guiding projects from the lab to the marketplace, the office protects intellectual property, builds industry partnerships, supports startups, and provides resources that accelerate commercialization.

The office serves all members of the A&M System—including 12 universities, the Health Science Center, and eight state agencies—bringing a customer-service approach to research and innovation. By engaging faculty and students through education, outreach, and inventor support, the innovation office is cultivating a strong culture of entrepreneurship and discovery across Texas.

The results are significant: more than 5,970 invention disclosures reviewed, 2,600+ patents obtained, and 1,760 intellectual property agreements executed with over 1,100 companies. In just the past five years, these efforts have generated more than \$48 million in licensing revenue, strengthening the Texas economy and delivering solutions with global reach.

Through this work, Texas A&M Innovation is positioning the A&M System as a leader in commercialization, advancing technologies that improve lives while fueling economic growth locally, nationally, and worldwide.

NUCLEAR SECURITY OFFICE

nuclearsecurityoffice.tamug.edu

NUCLEAR SECURITY OFFICE
200 Discovery Dr., Suite 101g,
College Station, TX 77843 | 979-458-2475

THE TEXAS A&M UNIVERSITY SYSTEM NUCLEAR SECURITY OFFICE serves as the hub connecting A&M System faculty, students, and staff with the U.S. Department of Energy (DOE) and National Nuclear Security Administration (NNSA) laboratories, plants, and sites. Through these partnerships, the NSO helps advance science, engineering, and workforce development in support of the nation's nuclear security mission.

The A&M System is uniquely positioned for this work. With 12 universities, a health science center, and eight state agencies, the System brings together more than 170,000 students, thousands of faculty, and world-class research facilities—including Texas A&M's TRIGA research reactor and high explosives testing capabilities. This breadth allows the NSO to support cutting-edge research, training, and technology development aligned with national security priorities.

NSO programs emphasize workforce development, connecting students with internships, research experiences, and security clearances that open doors to careers at national labs. The office also supports K-12 STEM outreach, community college pathways, and professional training through the Texas A&M Engineering Extension Service.

By fostering collaboration, preparing future leaders, and advancing critical research, the Nuclear Security Office strengthens Texas A&M's historic role in public service while supporting the security of the United States.

SYSTEM OFFICE OF RESEARCH

TEXAS A&M SEMICONDUCTOR INSTITUTE

chips.tamug.edu

TEXAS A&M SEMICONDUCTOR INSTITUTE
301 Tarrow Street
College Station, TX 77840

The TEXAS A&M SEMICONDUCTOR INSTITUTE (TSI) is a resurgence of U.S. and Texas semiconductor leadership, established in May 2023 by The Texas A&M University System Board of Regents. TSI is focused on building the future of semiconductor research, development, and production. It brings together experts from across the Texas A&M System, supports workforce training, and works closely with industry partners. TSI is helping to secure America's technological leadership and national security for the future.

Chips are everywhere in our daily lives. They power everything from national defense and healthcare to energy, manufacturing, cars, communication, and computing. But relying too much on overseas production, along with limits in current U.S. manufacturing, poses a real national security risk. That is why it is so important to boost domestic production of this critical technology.

The institute is focused on cutting-edge research in quantum photonics, wafer front-end processes, AI-informed digital twins, space manufacturing, and co-design/EDA.

TSI's new state-of-the-art facility at the Texas A&M-RELLIS Campus is on track for Q1 2028 occupancy.

As a leader in Texas's semiconductor ecosystem, TSI hosts the annual Texas Semiconductor Summit, which brings together industry leaders, researchers, and policymakers to address challenges and opportunities in the semiconductor ecosystem.

CENTER FOR APPLIED COMMUNICATIONS AND NETWORKS

cacn.tamug.edu

CENTER FOR APPLIED COMMUNICATIONS AND NETWORKS
1501 Texas Avenue South
College Station, Texas 77840

THE CENTER FOR APPLIED COMMUNICATIONS AND NETWORKS (CACN) focuses on applied research in wireless and next-generation communication systems that support public safety, defense and critical infrastructure. It also contributes to both basic and applied research across The Texas A&M University System and internationally.

CACN's core mission is to improve connectivity, interoperability and security in communication systems. To achieve this, it brings together experts from government, industry and academia to develop and deploy practical technology solutions.

One of CACN's key areas of research is enhancing interoperability—making sure different communication systems can work together reliably. This includes creating protocols and standards that improve how systems interact, which boosts the performance and dependability of critical networks.

Through partnerships with government agencies, industry leaders and academic institutions, CACN leads projects that test new technologies in real-world settings. These efforts ensure the solutions meet the high standards required for mission-critical applications.

CACN's facilities—including the CACN Lab, AWARE Transport Network (ATN) and RELLIS Spectrum Innovation Lab (RSIL)—support a collaborative and innovative research environment. These labs enable groundbreaking experiments, interdisciplinary projects and real-world testing, helping to develop communication technologies that meet the needs of today's connected society.

THE TEXAS A&M UNIVERSITY SYSTEM OFFICE OF RESEARCH

RESEARCH SECURITY OFFICE

rso.tamug.edu

THE TEXAS A&M UNIVERSITY SYSTEM RESEARCH SECURITY OFFICE (RSO) is a dedicated team of professionals committed to protecting the integrity and security of research across the A&M System. Recognizing the increasing complexity of the research landscape, the RSO provides comprehensive support to researchers, faculty, and staff, ensures compliance with federal regulations, and safeguards intellectual property.

The RSO's core mission includes mitigating risks by proactively identifying and addressing potential security threats, including foreign influence, data breaches, and intellectual property theft. It facilitates secure research by providing expert guidance on handling sensitive information, managing international collaborations, and complying with export control regulations. The office also empowers researchers through training and education, equipping them with the knowledge and tools necessary to conduct their work securely and responsibly.

With a proven record of success, the RSO has been recognized multiple times with prestigious awards from the Defense Counterintelligence and Security Service (DCSA). Its expertise and dedication make the RSO a vital asset in protecting the A&M System's research endeavors and maintaining its position as a leader in innovation.

JOINED A&M SYSTEM.....September 1, 2019
FY 2024 FEDERAL FUNDS MANAGED\$23.5B
FEDERALLY DECLARED DISASTERS SINCE
1953376

The TEXAS DIVISION OF EMERGENCY MANAGEMENT carries out a comprehensive, all-hazards emergency management program for the state and assists cities, counties and state agencies in planning and implementing emergency management programs. Texas typically receives more federal disaster declarations than any other state in the nation, an average of one every eight months. TDEM manages a wide array of programs related to all phases of emergency management by partnering with local, state and federal agencies to ensure Texas prepares for, responds to, recovers from and mitigates against future disasters.

TDEM's preparedness programs provide jurisdictions support for planning and training, while field response staff support local partners on the ground across the state. Recovery and mitigation personnel manage billions of dollars in FEMA grant funds, working to assist local jurisdictions before, during and after disasters.

As a member of the A&M System, TDEM leverages the System's research and higher education capabilities and enhances coordination of the state's emergency management workforce— thus improving life safety and property protection, as well as leading to faster recovery from disasters.

TEXAS A&M AGRILIFE RESEARCH is the state's leading research and development agency for agriculture, natural resources and the life sciences. With a statewide presence—from the headquarters in Bryan-College Station, to other Texas A&M University System campuses and 13 regional Research and Extension Centers—AgriLife Research provides innovative solutions to some of the world's greatest challenges.

Research helps enhance competition and prosperity in agriculture; sustain healthy ecosystems and conserve natural resources; improve public health; create resilient communities; and optimize plant and animal production. In fact, AgriLife Research has ranked first in the

nation for agricultural sciences and natural resources conservation in seven of the last nine years.

AgriLife Research conducts research in the Texas A&M Colleges of Agriculture and Life Sciences and Veterinary Medicine and Biomedical Sciences. The agency collaborates among nine other A&M System centers and institutes, as well as with state and federal agencies, private-sector corporations and scientists all over the world.

TEXAS A&M FOREST SERVICE is a state agency that helps conserve forests and related natural resources, as well as protects the lives and property of Texas. The state agency helps property owners maintain land and natural resources to ensure forests remain productive and healthy for generations to come.

Texas A&M Forest Service also supports the state's response capability for incident management. From the initial response to ongoing recovery, the agency strives to protect Texas from wildfire and other disasters.

Texas A&M Forest Service does this by fighting wildfire and responding to incidents, and also by building capacity and increasing public

awareness about community protection and wildfire prevention.

In partnership with other agencies, local governments, and fire departments, Texas A&M Forest Service provides programs to aid communities across the state, giving them tools and resources to protect themselves and their properties.

The **TEXAS A&M VETERINARY MEDICAL DIAGNOSTIC LABORATORY** helps protect the health of livestock, poultry, companion animals, exotic animals and wildlife by testing hundreds of specimens from around the world every day. TVMDL offers more than 700 state-of-the-art diagnostic tests that deliver accurate results promptly and affordably. With four labs located in the state's leading livestock and poultry regions, TVMDL is uniquely situated to serve animal agriculture.

As a Level I Laboratory in the National Animal Health Laboratory Network, TVMDL is among a group of state and regional labs designed to provide a nationwide surge testing, response and recovery capacity. TVMDL also acts as the backbone for a disease surveillance system that protects animal and public health and the agriculture economy.

Animal owners, the agriculture industry, and government agencies depend on TVMDL's accredited laboratories and globally recognized expertise to help preserve animal and public health.

TEXAS A&M ENGINEERING EXPERIMENT STATION performs research and leverages expertise from universities, national laboratories and state and federal agencies to improve lives through basic and applied engineering research. Our collaborations improve quality of life, foster economic development and enhance education.

The agency positions Texas to be especially competitive for federal dollars and plays a significant role in strengthening research leadership across the state in energy and power, health care, information systems and data science, infrastructure, materials and manufacturing and national security. Industry outreach, technology

transition and workforce development initiatives ensure that TEES research positively impacts society.

Additionally, through its connection to the Texas A&M College of Engineering, more than 2,000 graduate and undergraduate students across 15 departments have opportunities to engage in TEES research. The agency serves Texas with headquarters at Texas A&M-RELLIS and specialized research centers and partner institution offices throughout the state.

TEXAS A&M ENGINEERING EXTENSION SERVICE helps first responders, organizations and communities prepare for, respond to and recover from disasters. TEEX offers training, technical assistance and product assessments in fire and emergency services, infrastructure, safety, law enforcement, cybersecurity and economic and workforce development.

Whether delivering training for clients around the world or at our facilities in Bryan/College Station, TEEX provides realistic, relevant and impactful training that is fully customizable and developed by in-house subject matter professionals.

Beyond this, TEEX also sponsors the Texas A&M Public Works Response Team (TX-PWRT) and the Texas A&M Task Force (TX-TF), which assist local jurisdictions during and after disasters.

The agency extends its impact through collaborations with other Texas A&M University System members, state and federal agencies, the military, private-sector corporations and the international emergency response community.

TEXAS A&M TRANSPORTATION INSTITUTE (TTI) addresses complex transportation challenges and opportunities with innovation, objectivity and unmatched technical expertise. Recognized as one of the premier higher education-affiliated transportation research agencies in the world, the institute conducts over 700 research projects annually with more than 200 sponsors at all levels of government and the private sector. In the laboratory and the classroom, TTI researchers help prepare students for transportation careers.

With expertise in engineering, planning, economics, policy, public engagement, landscape architecture, environmental sciences, data sciences, social sciences and more, TTI researchers are leaders in

their fields. They produce practical products and strategies and ensure that sponsors have the research-based results they need to make informed decisions.

TTI has a significant presence in eight urban areas across Texas, as well as in Washington, D.C. and Mexico City, Mexico. The institute maintains a full-service safety proving grounds; environmental and emissions facility; sediment and erosion control laboratory; visibility research laboratory; and driving simulation laboratory, as well as other laboratories, including pavements, materials and structures labs.
